Daniel Murphy
Catholic High School

Dear Readers,

The 1983 edition of Nobiles is your passport to great memories of a great year at a great school, Daniel Murphy. For the seniors it is a final yearbook; for the underclassmen it is a continuation of more books to come.

Since the yearbook is always geared towards the graduating class, it is not improper to congratulate the class of 1983 for its outstanding contribution to Daniel Murphy. Our class had spirit, poise, and most on the athletic field, and on the stage; this display of excellence blended together to make the class of 1983 special.

For me, putting together the yearbook has been a great experience. As editor-in-chief I would personally like to thank the many people who helped put the book together: Mr. Gary Carter who was a fabulous moderator and a great help during those tough deadlines; Father Leslie Esposito who was always supportive of all yearbook functions and goals. I would also like to thank the great staff I had this year. They spent many hours after school in the office at the typewriter, in the darkroom developing, or actually producing these pages. Finally I would like to thank Mr. Michael Yuhasz, to whom this yearbook is dedicated. As a former moderator, Mr. Yuhasz has been an inspiration to the yearbook, and to Daniel Murphy as a whole.

The yearbook staff has tried to cover all facets of life at Murphy for 1982-1983. So now, enjoy traveling through the 1983 Nobiles, Murphy's passport to memories.

Sincerely,

Thomas J. Blumenthal

Passport to Memories

A passport, by definition, is a document by which one is able to travel from one place to another. When we of the yearbook staff decided on "Passport" as the theme for this year's yearbook, we considered it appropriate not only because of the change of administrations who governed this year's graduating class, but also because high school is a transition from relative dependence to independence.

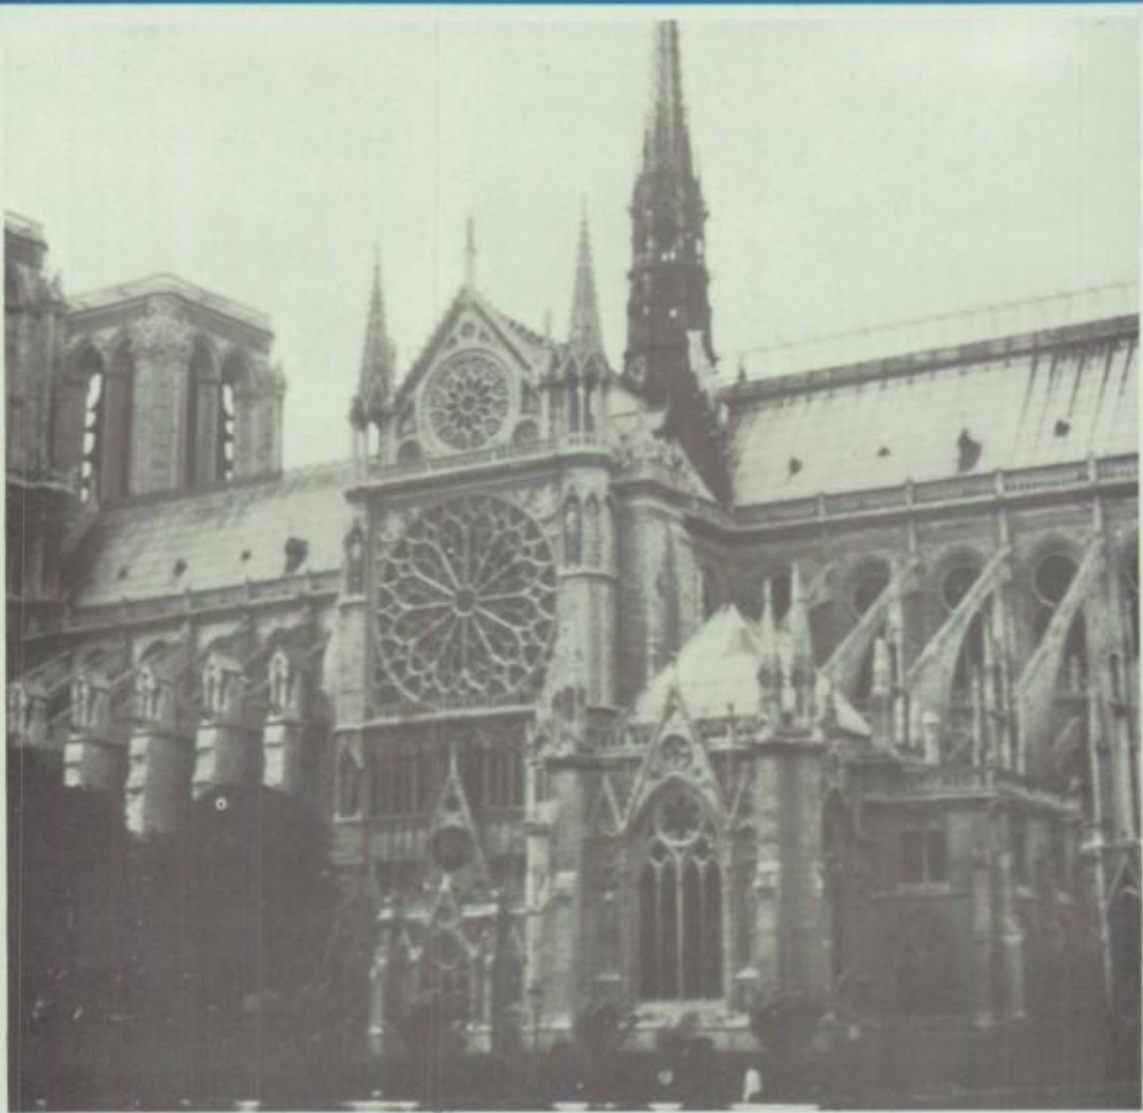

A passport is also engraved with stamps from every different place one has been. The quality of the stamp given us by Daniel Murphy High School depends largely upon how much we put in it. We at Daniel Murphy, believe that the variance and diversity of both our student body and student activities will make us more well-rounded and better suited to live in an adult world. Our curriculum, while not always the most innovative, concentrates on the most necessary knowledge and is always slowly and carefully expanding.

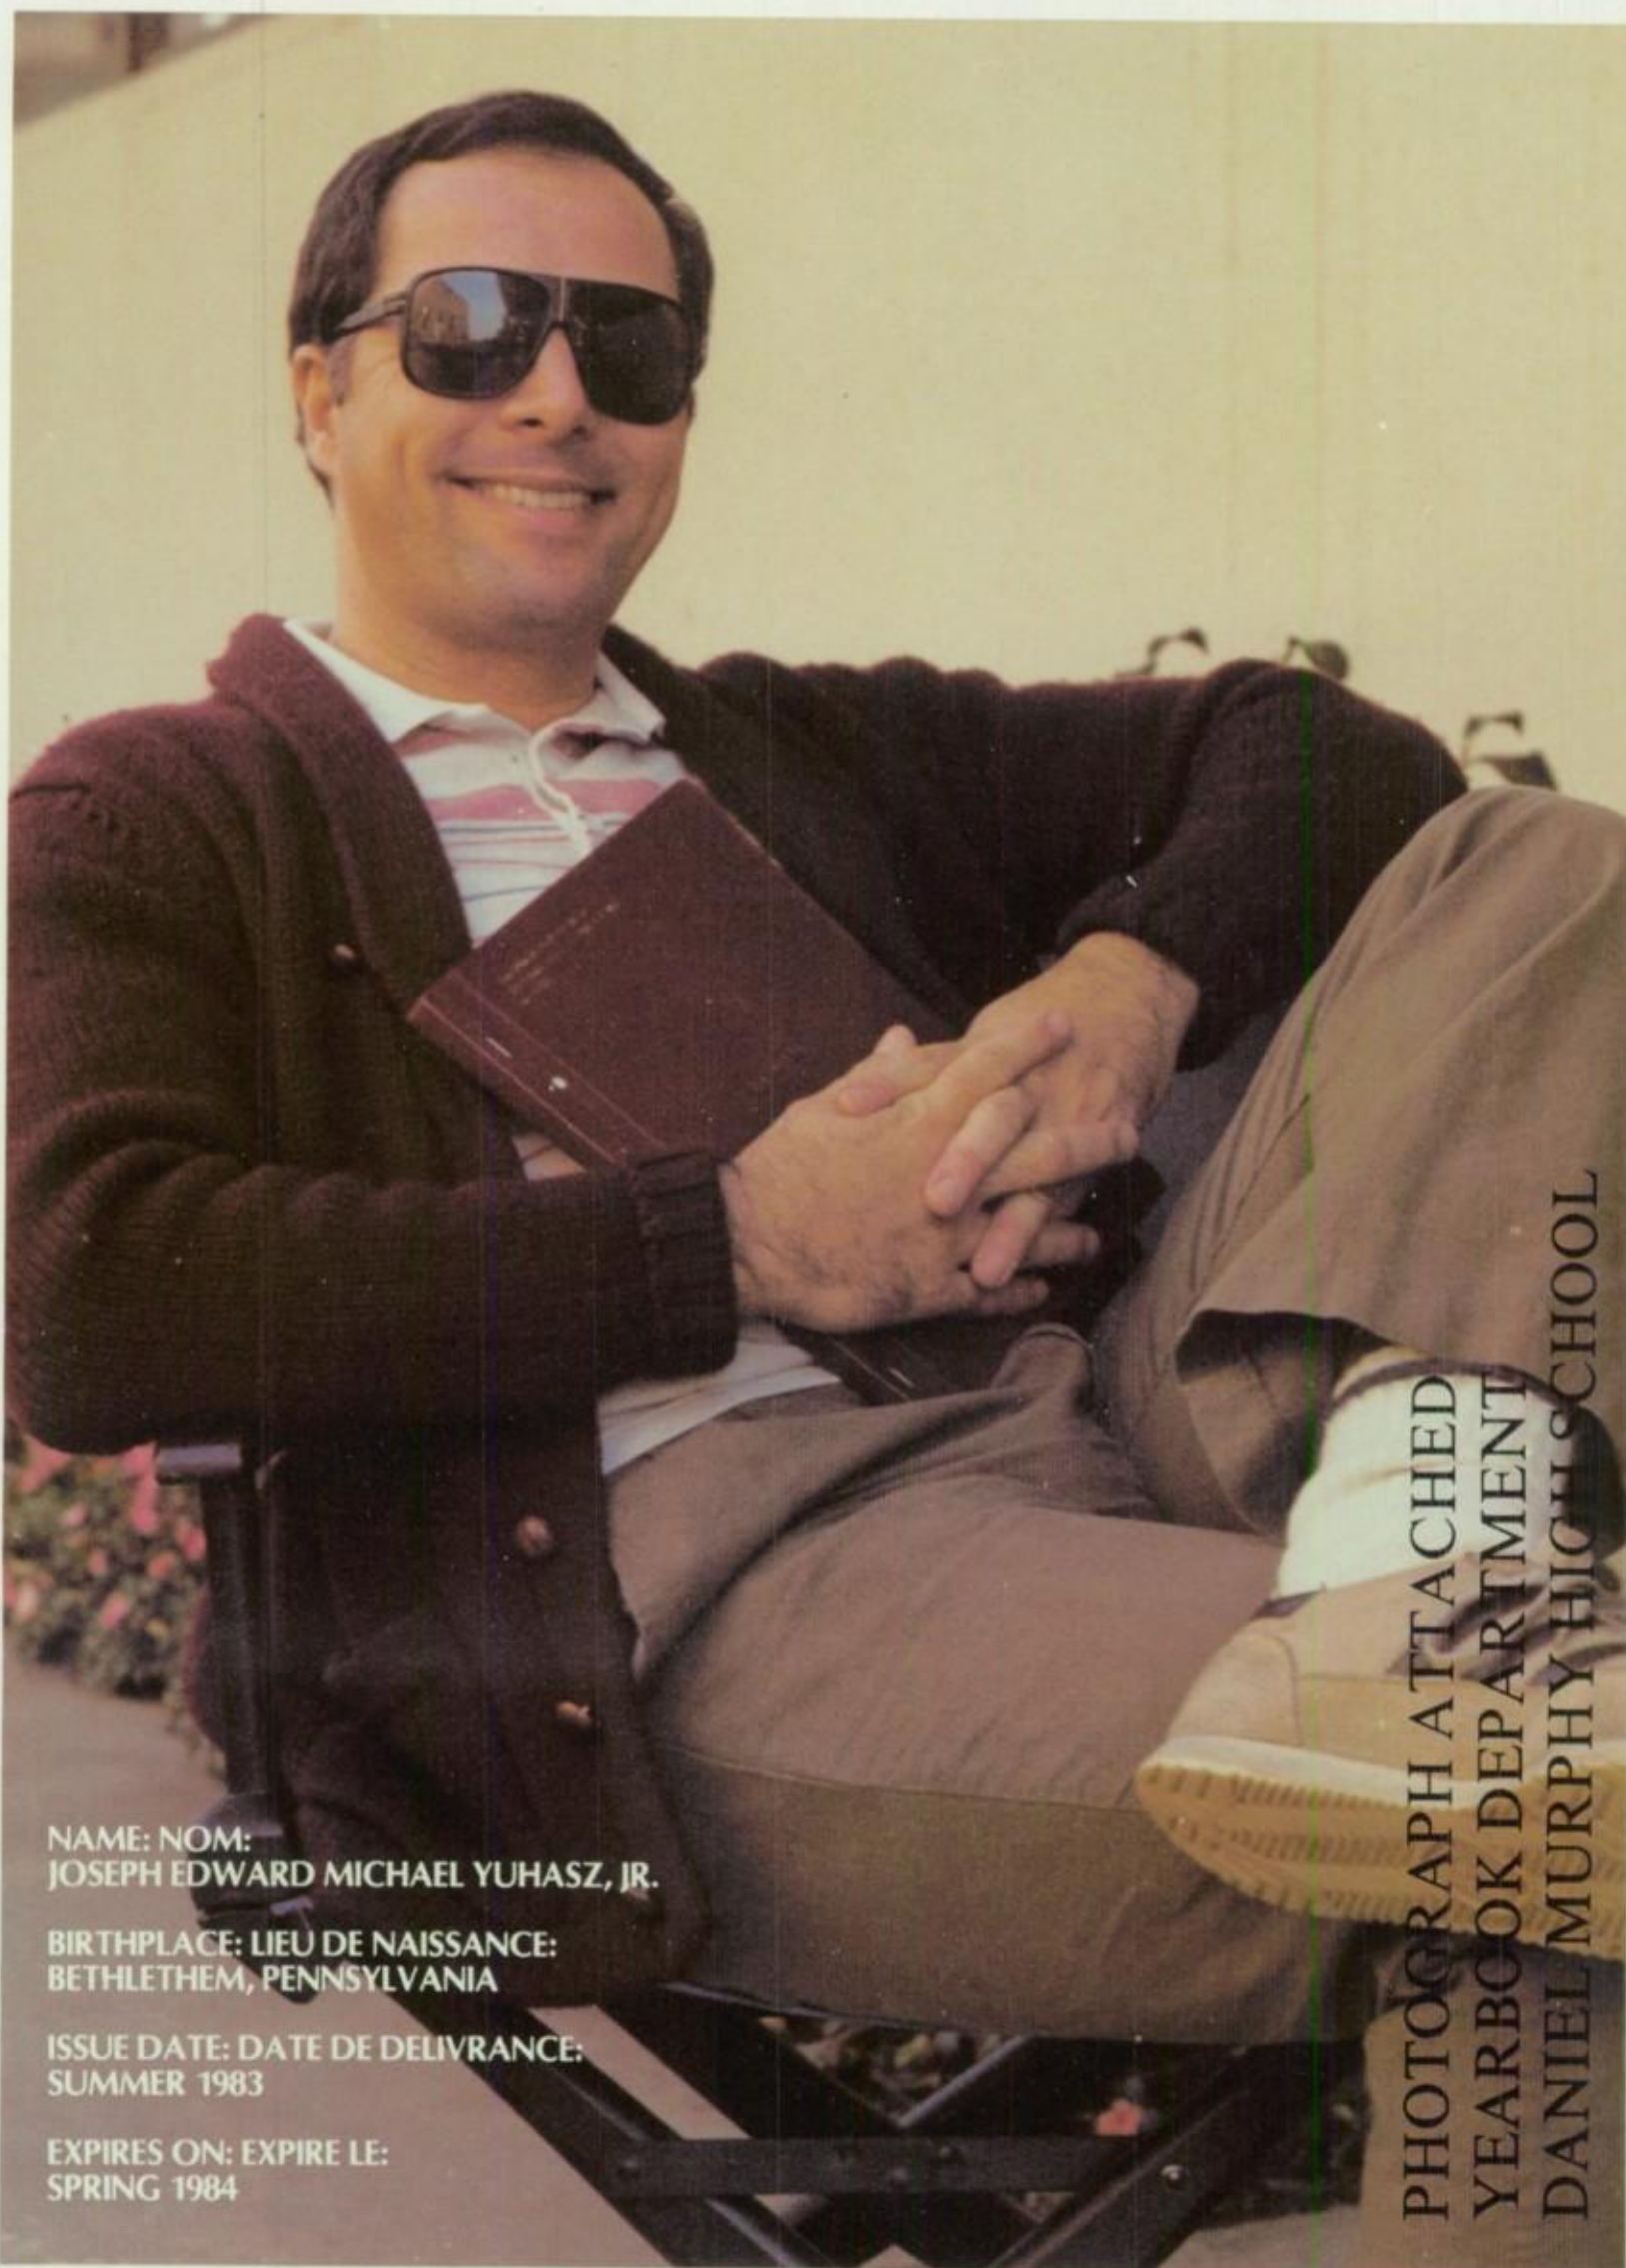

High school, itself, is a passport from one phase of life to the next. It is a place where one is expected to learn to think independently while living dependently. This environment often causes friction and conflict from which the willing can learn to get along in adverse conditions.

High school isn't and shouldn't be all roses because life isn't either. If high school was that lovely a place we would never want to leave it. We feel that high school is a transition between late adolescence and life ahead.

In conclusion, we commend you, the underclassmen, to the teachers of Daniel Murphy and to your own reasoning faculties. Our school is both a realistic and wholesome place where you can learn to survive and to succeed in today's world. The choice between success and failure is now, as it always will be, up to you.

In Dedication . . .

Joseph Edward Michael Yuhasz

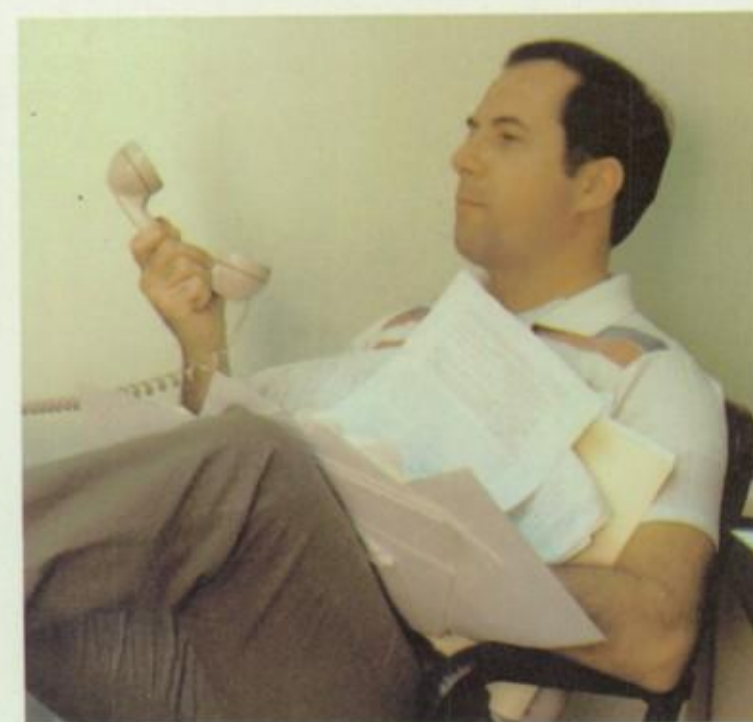

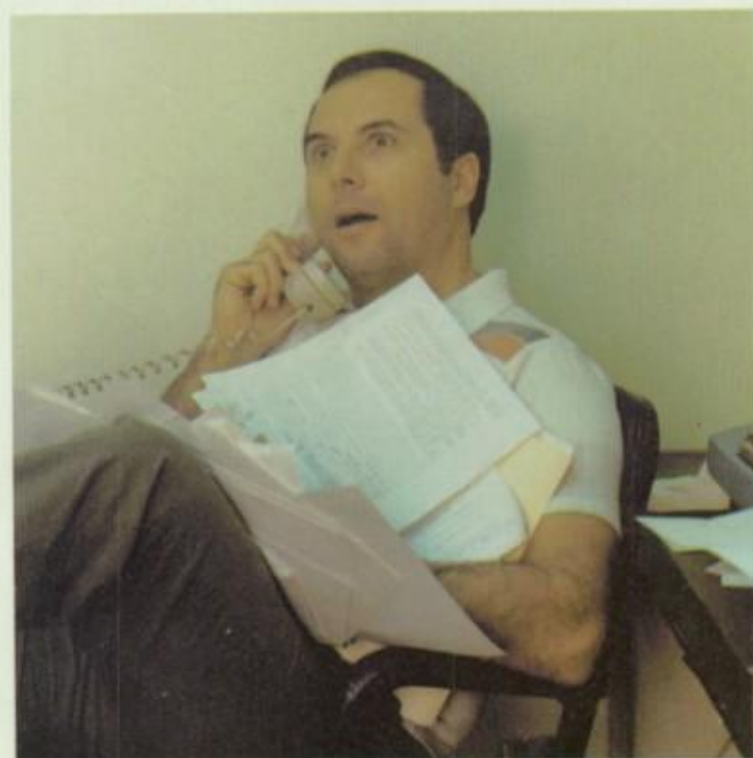

This year we are starting a new tradition of dedicating the yearbook to a faculty member. We feel that this year's choice should receive the recognition which he so deserves. Micheal Yuhasz is both loved and respected by the faculty and students. His unyielding wit and charm has contributed to his being one of the most popular teachers at Daniel Murphy High School.

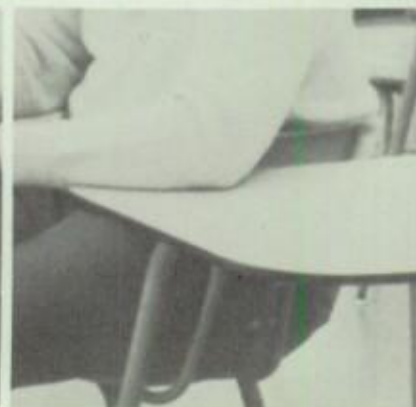

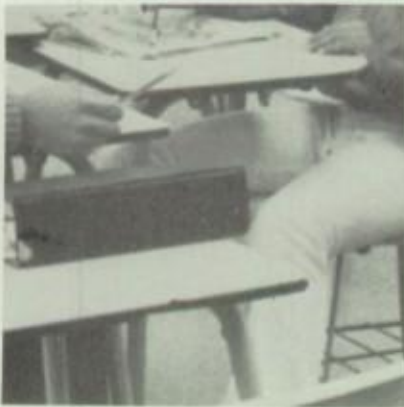

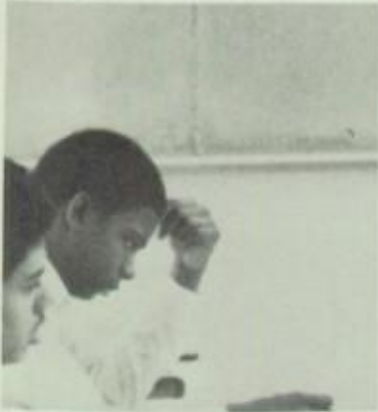

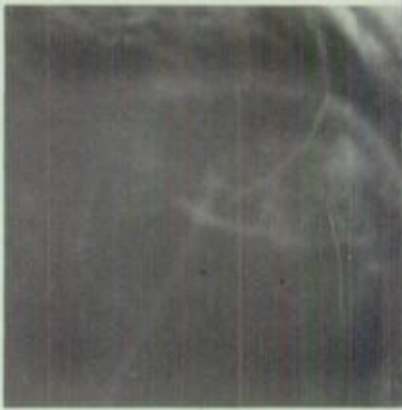

He was born Joseph Edward Michael Yuhasz in the populous industrial City of Bethlehem, Pennsylvania. At the age of eleven, his interests were centered around the theatre, and by sixteen, he was performing in summer stock and little theatre.

Michael Yuhasz attended Kutztown College where he majored in English and Theater Arts, and minored in Art. After graduating, he lived in the huge metropolitan city of New York where he worked in commercials and appeared in small off Broadway productions. He gave up the latter for the fame and glamour of Hollywood. His youthful vigor urged him to find fun and adventure by hitch-hiking across the country a few times and finally settling in the Bay area where he described himself as "the big beach bum in Monterey." After moving to Los Angeles, he found a job as a supervisor for NBC. He considered the job as being un motivating and so he left to become a teacher.

Michael Yuhasz is certainly someone to be proud of. He has guided many of our students, often giving them advice on subjects both in and out of school. Over the years, he has taught such subjects as English, Speech, Drama, and Yearbook. Over the past two years, many a summer school student sent to the principal's office meant a trip to see Mr. Yuhasz.

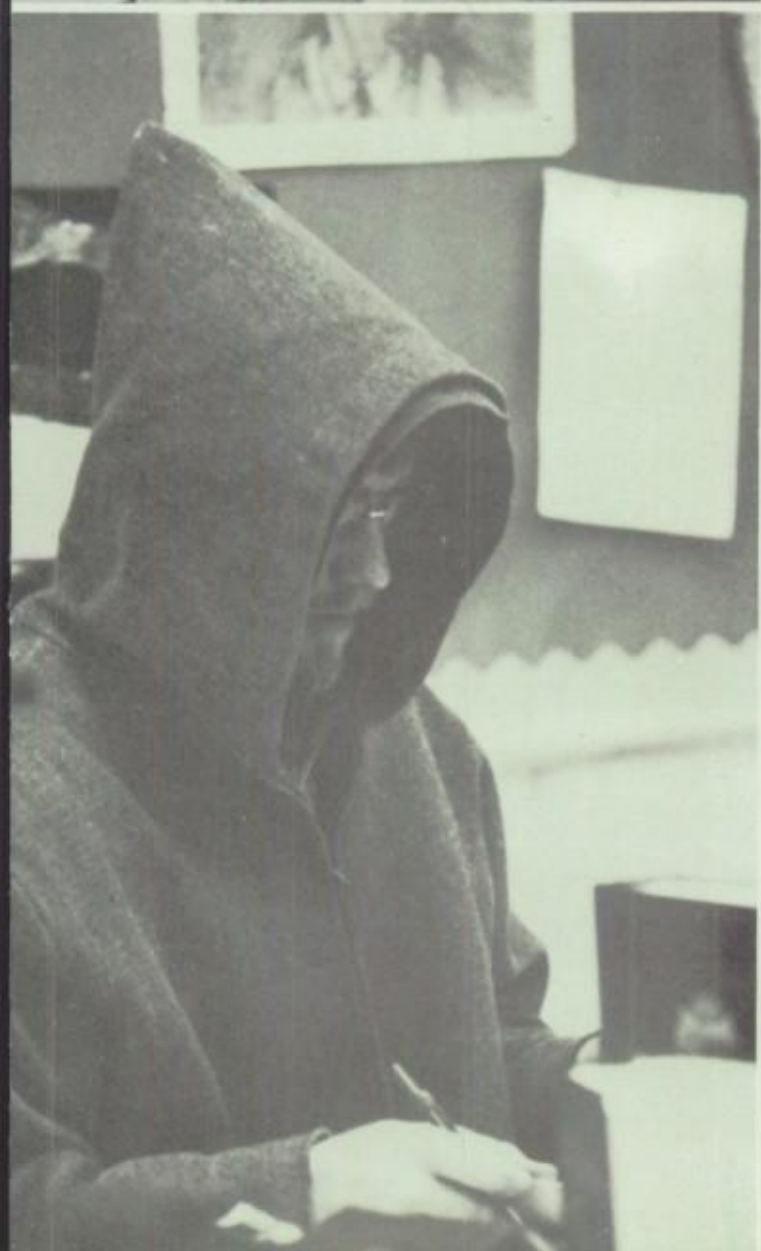

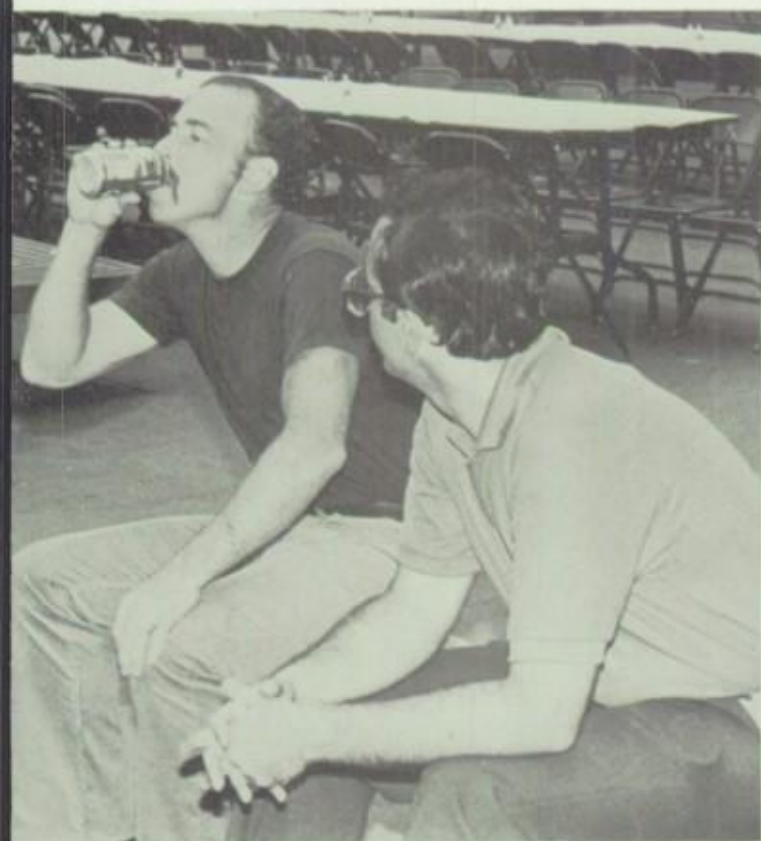

His overly proud personality adds to his charm. When asked to describe himself, the man replied, "I'm bright, witty, and cute as a button." His goals are to someday have "The Yuhasz Theatre" built with its 500 seating capacity and also to have his office redecorated with "Barone" jungle wallpaper and two palm trees. He is a perfectionist and certainly an individual who should be proud of his achievements.

My Dear Graduates:

The Greeks had the idea of time as "opportunity." It was pictured as a man with one lock of hair, but the back of his head was bald. The idea was that, as he moved by, you had to catch that one lock of hair because if you missed it, it was gone forever.

This same idea, the taking advantage of every God given opportunity that time allows you lest it be missed forever, is now facing each of you. For the past four years you have dedicated yourselves to acquiring knowledge, pursuing excellence, and meeting the challenges of everyday high school life. Now you are about to embark on a new and exciting journey. This journey will be filled with a multitude of opportunities which will be offered to each of you. Most of these opportunities will come along only once; and it will take a commitment from each of you to grasp onto these opportunities. You will have to distinguish which opportunities will allow you to grow in the wisdom and grace of God and which opportunities will lead you away from your God directed goals. One of the vitally important things in today's world is the good sense and readiness to seek out and to acquire what is really important.

In your search for what is really important, I hope you will find that the most important thing in today's world is man's dedication to do what is good. This dedication takes men who have the reason of good judgement to first know and then search out only that which is good in this life. In the pursuit of this "good" we are like Noble knights going forth from King Arthur's Round Table. We are challenged to act courageously, to endure difficulty, and to always be Noble.

My dear graduates — always remember the motto of Daniel Murphy High School: "A noble man plans noble things and by noble things he stands." Isaiah 32:8. God bless you all in your future pursuits.

Sincerely,

Father Leslie V. Esposito

Dear Seniors,

Becoming a good human being is a lifelong project. It is a project all of us work on every day of our lives; we will know the degree of our success or failure only in the long run.

Your time at Murphy should have given shape and direction to your development as a good human being. It should have taught you to think, to make valid choices, to distinguish between real and merely superficial values. At Murphy, too, you should have learned something about honesty, loyalty, tolerance — about compassion and genuine human freedom. If you reinforce these lessons, day by day, you cannot help but succeed in your life's central project — you will be good, noble men.

My hope is that you will, indeed, always be good men and that your education at Daniel Murphy will be an important contributing factor in making you so.

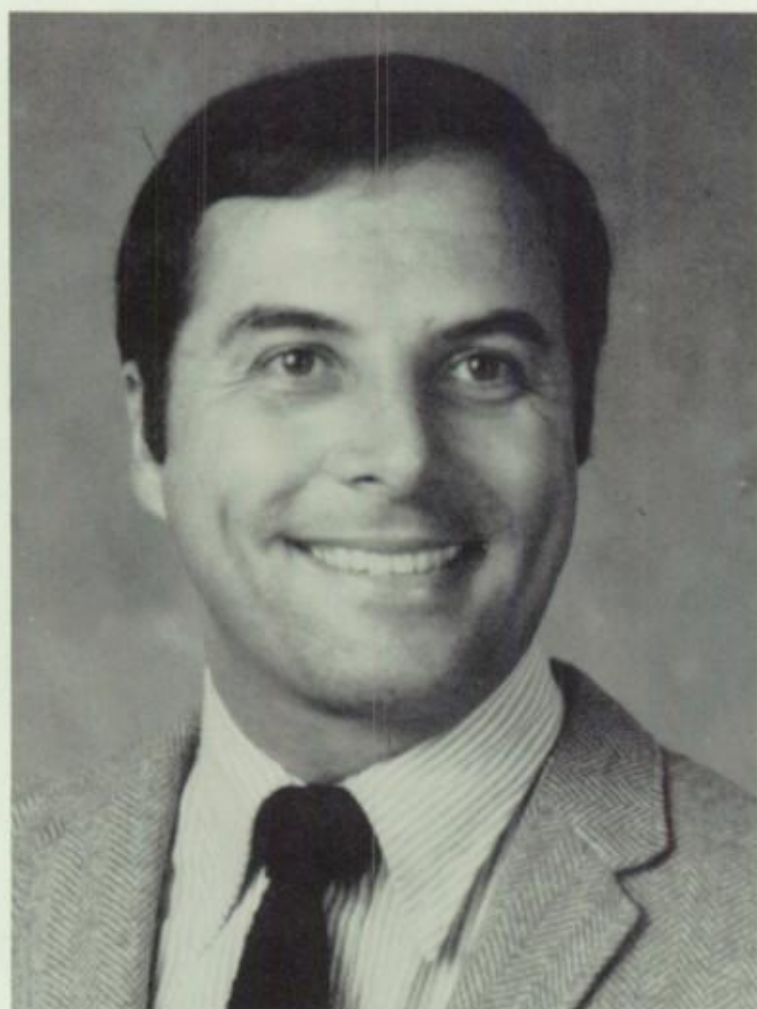

God bless you all!

Seniors:

Someone once said that the best things in life are free. Well, *some* of the best things in life are free. But success, personal contentment, friendship, and love will not come freely. You will have to exert your best efforts to attain the best results in all these areas. Success will mean hard work and dedication; it will mean trying to be better than anyone else in your field — always! Personal happiness will mean creating the best atmosphere possible for you — knowing what to keep in your life and improve, and also knowing what must be discarded. Friendships will call for compromise and understanding; you will be asked to understand what is best for others as well as for yourself. Love, the one emotion which sustains all of us through the hard times, may come freely to all of you one day. However, to make that love remain and grow, you will be asked to give a lot of yourself, to suffer pain at times, to share times of misfortune, and to always be faithful. So you see, love may come so freely, but the cost to keep it is great. I wish you all the best in all you seek to do. I hope our little school has filled you with big aspirations. Enjoy your lives and do your best.

Dear Graduates,

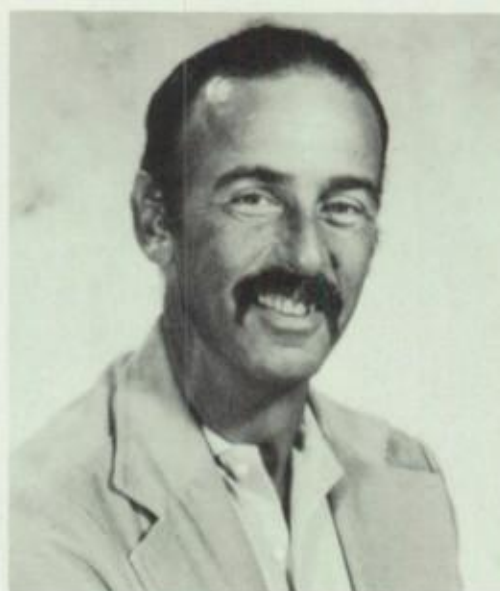

Once upon a time you were a student at Daniel Murphy. You spent many hours there working, playing, thinking; taking ideas and turning them up and down, in and out. Sometimes you looked at them straight-on, examining every side; at other times you saw them upside down, or backwards. Sometimes you dreamed them away. Yet, quietly, imperceptibly, you were changed. You came to look at the world through slightly-tinted Daniel Murphy glasses. They were very unique glasses, indeed — Cosmopolitan glasses that helped you to see beyond the differences in backgrounds to the persons underneath; Useful glasses that helped you to discover the reality beneath the surface of things and to sort out truth; Appreciative glasses that helped you to find God's beauty in people and in the world around you.

Now, as you go forward in life, may you new set of Daniel Murphy glasses help you to value what you have learned here, may they assist you to unravel the mysteries of your life and to view its details with wisdom and understanding. May they last long and serve you well.

One more thing — the trouble with glasses is — You have to remember to wear them.

To the Seniors of '83,

Charles Dickens wrote, "It was the best of times, it was the worst of times."

Four memorable years, a history of fluxuations of joy, sorrow, fear, and anxiety, now draw to dramatic conclusion amid caps, gowns, diplomas, and parties. It is suddenly June.

As your teacher, coach, and as Dean of Students I have witnessed this immortalization of elations travails. You, my students, athletes and friends are now historical facts — filed away in cabinets, yearbooks and teacher's minds. I find it difficult to believe it is suddenly June.

By the time these words are published you will have taken your first independent step on tomorrow's road — a road pitted with the same trivial rules and regulations of time tables, dress codes, and peculiar nuances — much like this place. But now, in June, as you step from the graduation altar, it will be different. Now you are the teacher, coach, and Dean of Self. This will be a necessity — you are now responsible for your own discipline — your own destiny. We have done our best to provide the vehicle for the future's road through the "best and worst of times" yet to come. You are now the driver heading into July.

Sincerely,

Dear Students,

Standing at the threshold of welcoming one of the most academically superior schools in Los Angeles, Daniel Murphy High School possesses an administration and faculty most unique in the area of secondary education. Dedicated to the qualities of developing the full potential of each student, we also face an equal challenge — the challenge of change. Change, as we all know, is painful at times. But through the pain, emerges the beauty of the process — you, the student. From the birth of the student as a confused, timid Freshman to the young man, the Senior, comes the experience you will cherish forever. Times of joy, times of sorrow blend into one as we reflect upon the words of sorrow blend into one as we reflect upon the words of Viktor Frankl's statement, "What is to give light must endure burning." Now you are to step forth, proud and noble . . . the young Daniel Murphy.

This was one of the games all had been waiting for! It was time for the tables to turn; the day that the student body was supposed to beat the infamous faculty. The faculty had their weapon, the team of Del Monte and Gallup, and the students had the volleyball team. The game got started with the students taking advantage of the teacher's mistakes, but the teachers came right back to take the lead. Though both teams were getting tired neither would concede to losing. Both sides had thought the game would be an easy win, but the game ended in a hard fought for tie. Most of the great plays on the students side were set up by seniors Jim Call, Matt Prior, and Mike McKinney who were all members of this year's volleyball team. Faculty, just wait till next year!

To the Students of Daniel Murphy High School,

We live in a time of change, and change has been the downfall of many great leaders throughout time. Change in itself is good if done properly one will end in success, but the contrary is equally possible. If one is unable to adapt to change, one is doomed to fail. Here at Murphy, we are taught through environment and experience how to observe change and understand it so that in the future we are able to handle "the changing times" and use them to their fullest potential.

The most significant change in the past four years was the transition from the Dominican Administration to that of the Archdiocese. We learned during this time each one of us has a flaw, that no one on this earth is perfect, but the best item that should be remembered is that for a person to be truly an adult it is not based on material facets of life. Rather one should be able to accept another human being as a friend regardless of his faults. This is quality that all people should have. We also do know that everyone has an inherent nobility about them, whomever they may be.

Time is swift, and now though we live in the present, we are eager to plan and live for the future. Yet, we must remember our past, our mistakes and our faults. These things are the very facts of life. We must recognize these things as parts of a plan for our success, and if these tools are not recognized properly, we are doomed to fail.

Yet, we should try to rise above the intricacies of life and in the end, find success. This "changing of the guard" here at Murphy has been difficult for several people. But the true sign of a noble is the ability to accept change and cooperate with the new.

To the Reader,

As you read this yearbook you will probably notice several changes. Foremost is the change of the name of the annual to *Nobiles*. This year's yearbook staff in no way felt that the former name of the yearbook, *Hodge Podge*, typified the Murphy Noble spirit. *Nobiles* is Latin for Noble; the new name adds the touch of class that is so evident at our school.

The yearbook has always been and will hopefully always be directed toward the graduating class. This is because the senior class is the motivation and leadership behind almost everything that happens at Murphy. In this book should be summarized the classes achievements and failures, trials and tribulations, and its memories. Starting the school year with this in mind, the *Nobiles* staff constantly strove toward this goal. If the yearbook staff has accomplished this goal, we have been more than successful.

Daniel Murphy has always been for the Class of 1983 a stepping stone toward full and meaningful life. Considering this, it was appropriate for the staff to choose *Passport* as the theme of this year's book. DMHS is truly a *Passport* to the future for all who take advantage of its offerings.

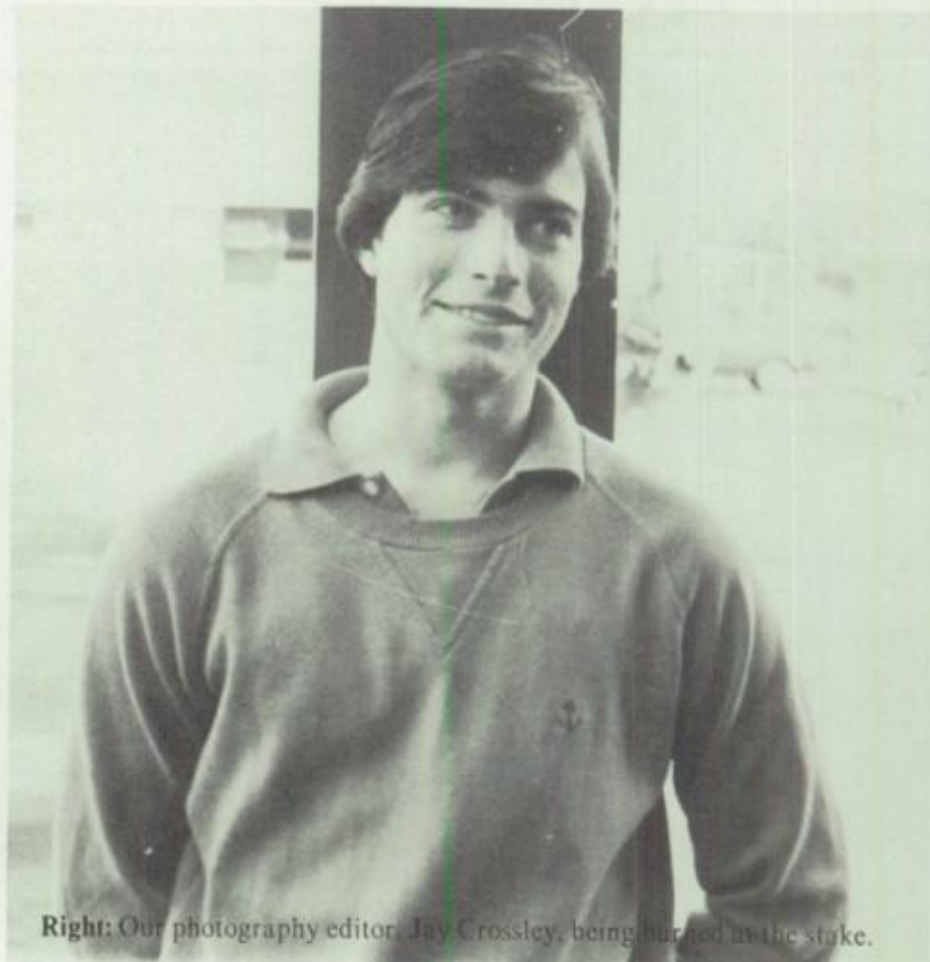

Our Art Editor, Matthew Campos, was assigned at the beginning of the year the job to design the format for all division pages in this book. During his search for an idea, he chanced to look through one of Mr. Carter's travel brochures. The cover caught his eye; it was a mixture of several pictures, one right next to the other, all divided into squares by white lines. So thus the format for the *Nobiles*' division pages came about. The pictures of far away places represent the goals that all of us have; the dividing white lines show us that everything in life is made of parts, some interesting, some not; the proximity of the pictures shows us how people and places can relate, one to the other. So as you look through the pages of this annual you are traveling through a book of memories.

On a personal note for the Class of 1983, you will notice on the pages entitled *Declaration of Citizenship* there is a stamp of citizenship approval for the Class of 1986. Since we were the ones who initiated the frosh, and provided the leadership in all the facets of the Murphy Nation, I felt it was intrinsically wrong to include the stamps of the Classes of 1984 and 1985 on the approving stamp. Unfortunately though, my opinion was not shared in a certain office next to the weight room on the far side of the school.

I would like now to thank all those who helped in the production of this yearbook. It fell upon me as part of my job to be in charge of all that is written in this book. Often though I would come upon a subject that either I knew little about, or felt that a more personalized view would be appropriate. To those who helped me in my job, I would like to thank you.

To the staff, we all brought something and shared it with everyone else. I totally enjoyed my time as a member of the staff, and I am sure all of you enjoyed your time on the staff also. Without the support of Mr. Carter and Fr. Esposito the production of this yearbook would not have been possible. It was a pleasure writing this; please continue reading and enjoy the book.

The inimitable Iron League. What can be said of this conglomerative that hasn't already been uttered in the past?

We have gained public acclaim primarily because of the club's purpose. It is an organization of war and/or mind game enthusiasts that plays games such as Flat Top, Ogre (21st century tank battles), Risk, Diplomacy, Intellivision games, and of course — *Dungeons and Dragons*.

Surrealism is also a part of the Murphy war gamer's craft. Our main game, *Dungeons and Dragons*, is an exercise in the imaginative power of its players.

The game goes on and on. The players stare blankly at each other across the table. Que Sera Sera.

I must agree with most that a first glance the "Shakespeare Society" must seem to be a pompous and rather pretentious name for a drama club. However in a school where such groups with names like "Mod Squad", "Leisure Suit Club", and "Iron League" exist, one must do something outstanding in order to be noticed (even if what one does is outstandingly pretentious).

This year we had a meshing of the very experienced and inexperienced in our production. Our technical and financial staffs were lead by 4-year veterans Jim Call and Tom Blumenthol respectively. Veterans of D.M.H.S.'s Drama Department, John Grinstead, Rod Gomez, and Sean MaCrae delivered performances in this year's fall production of "For the Love of Shakespeare." However, joining them were new additions. Charles Siolek, Arnold Casteneda, and Teague Clement made their debuts this year and all worked extremely hard and learned a great deal.

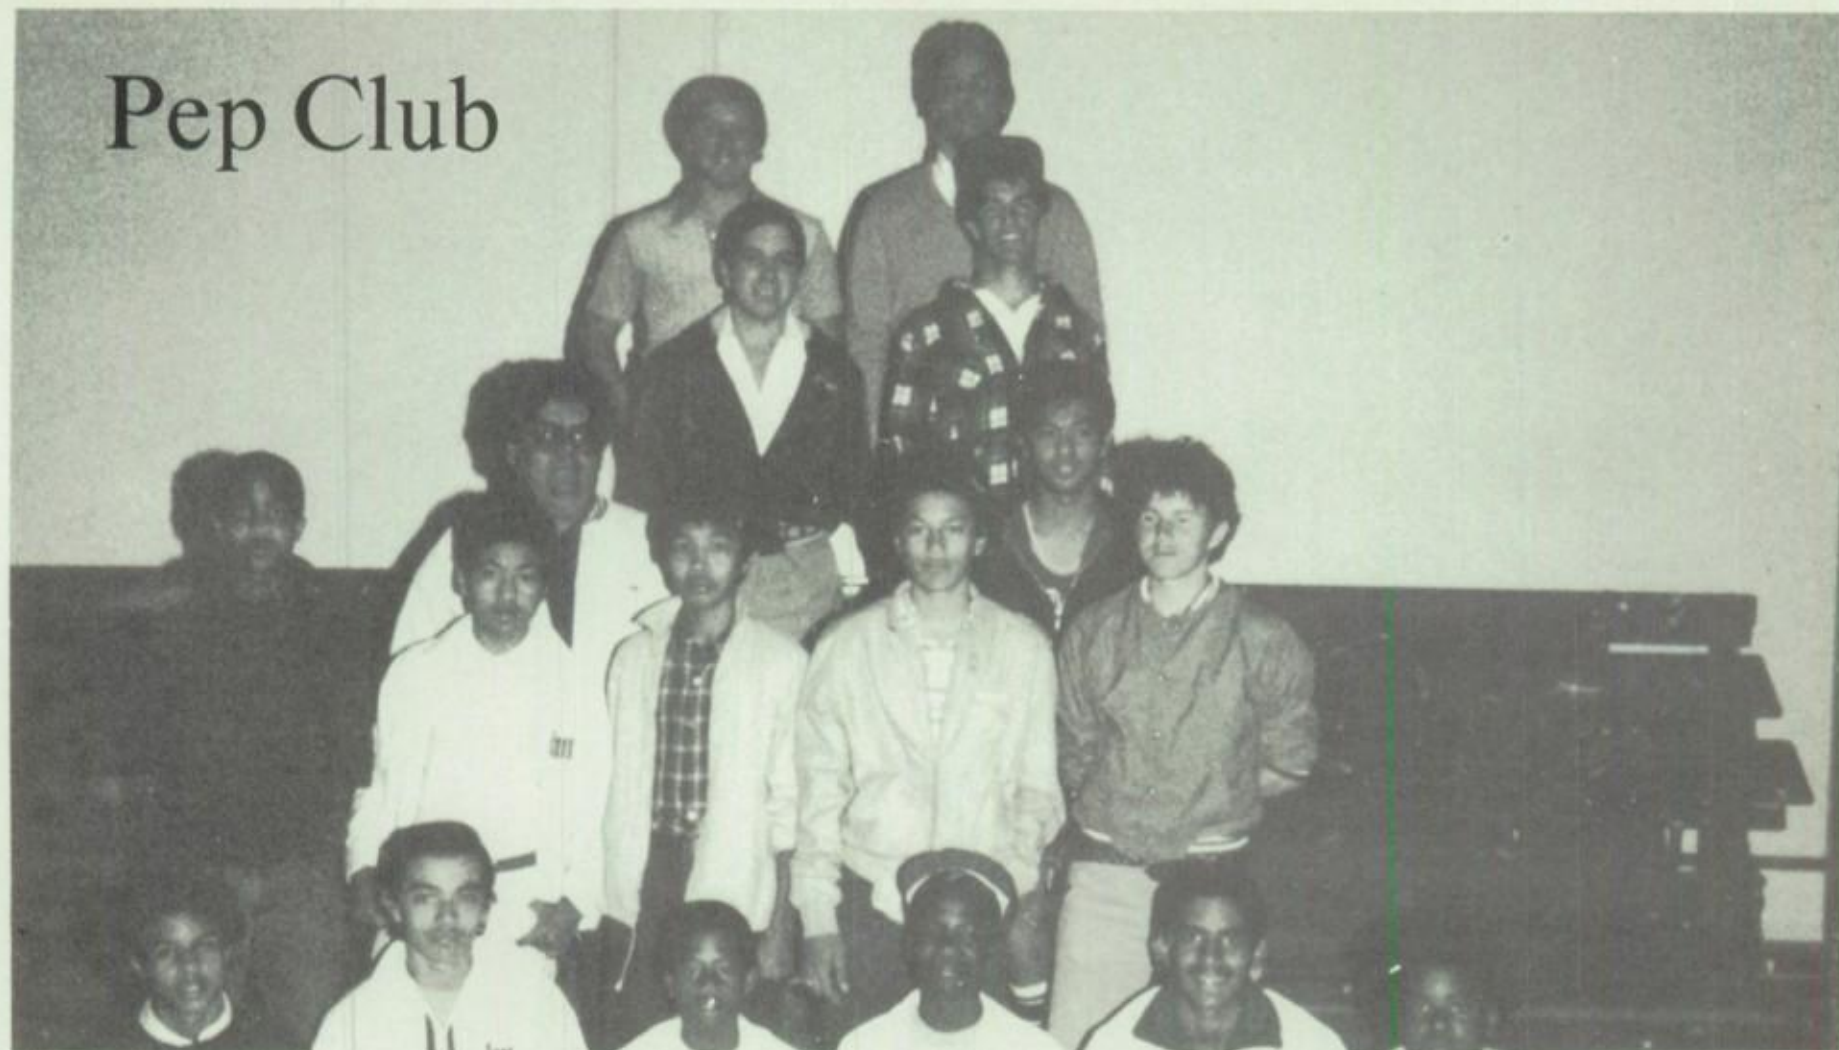

Moderated by Mr. Richard Salassi, the club is primarily dedicated toward the appreciation of Shakespeare. The presentations of "The Fantastics" and "For the Love of Shakespeare" have been the major projects of the Society this past year. We, of the Society, believe that this, our pilot year, was a success.

The job of the pep club of any school is to see that school spirit is upheld. When I undertook the job of President of the Pep Club, I didn't even think the freshmen class would make up such a large part of the Pep Club. To my surprise, though, the freshmen class kept it going with their never ending support and incredible numbers. The Pep Club was present at a large portion of the Basketball games, and made it to most of the frosh-soph football games. But without Mr. Cuthbertson's hard work and enthusiasm, the Pep Club would never have gotten off the ground. I would also like to thank Bob Gliddon, whose guidance and spirit lead us, and Shaun Jackson whose presence at every game truly scared the opposing team into submission.

I hope that after I'm gone, the Pep Club will be taken over by a good leader and keep going strong, for a good pep club sets the mood for the school year round. Thanks, Murphy Pep Club, for a great year!

Mr. Fredericks was the moderator of two of these chapters, the skiers and hikers. Mr. Mathews led the bikers and surfers. However, as the year progressed, the hiking chapter was the most active. In March 1983 they went to stomp their boots on Catalina Island. In the summer, Mr. Fredericks and the club hopes to conquer another terrain; Yosemite National Park.

The other clubs during the year made many plans, but because of many problems that arose most of those trips were canceled. As for the hikers, "Have fun in August 83."

The Mothers Club

There is an old saying that goes "behind every good man is a good woman." We are very proud to say that behind Daniel Murphy High School there are a lot of good women. These women are the active members of the Mothers' Club. Over the years, the Mothers of our students have supported us with their presence and have spent many hours raising finances for our school through the many wonderful functions they sponsor during the school year. Our love and deep thanks go out to each of our beautiful mothers who have done so much for Daniel Murphy High School. May God bless them in their efforts now and in the future.

SPORTS

1983

Best Season Ever!

For the third time in the four years our cross-country team had a very successful season. The team ended up second in the Camino Real League with an 8-1 record. Hondo Sotelo and Randy Jacobs led a "Powerhouse" team, coached by former Murphy athlete, Dennis Banks.

The season began with a spectacular win over the Salesian High School Mustangs; a team which had gone seven years without a loss in a duel meet. Murphy's team then went on to win against Pius X, ST. Monica, Cantwell, St. Anthony, Mary Star, St. Bernards, and Verbum Dei.

The Team consisting of seven members and one alternate (Hondo Sotelo, Randy Jacobs, John Baird, Franco Frisan, Hector Mendoza, Gary Obligacion, Steve Cedrun, and Sam Onda), finished 3rd at the Bell-Jeff Invitational, 5th at the Mt. Sac Invitational, and 4th at the Alemany-Northridge Invitational. In the course of these invitationals Randy Jacobs won two medals, Hondo Sotelo also won two medals, and both John Baird and Franco Frisan each won one medal. All was accomplished with the moving spirit of the injured David Pollard.

Said Coach Banks, "We didn't quite take League but we still had a great season . . ." For the DMHS cross-country team of the 1982-83 school year, that says it all.

Cross Country

Murphy at Verbum Dei	45-15
Salesian at Murphy	23-32
Pius X at Murphy	17-57
Murphy at St. Monica	23-32
Cantwell at Murphy	24-31
Murphy at St. Anthony	27-28
Mary Star at Murphy	27-29
Bishop Montgomery at Murphy	28-28
Murphy at St. Bernard's	26-27

Team Comes Up With Noble Finish

This year, Daniel Murphy High School fielded one of the finest Frosh-Soph Football teams this school has seen in the last ten years. The mighty Murphy defense, the Noble's strongest asset, was led by defensive lineman Milton "The Monster" Wilson with power defensive ends Eric Brown and Kevin Harper.

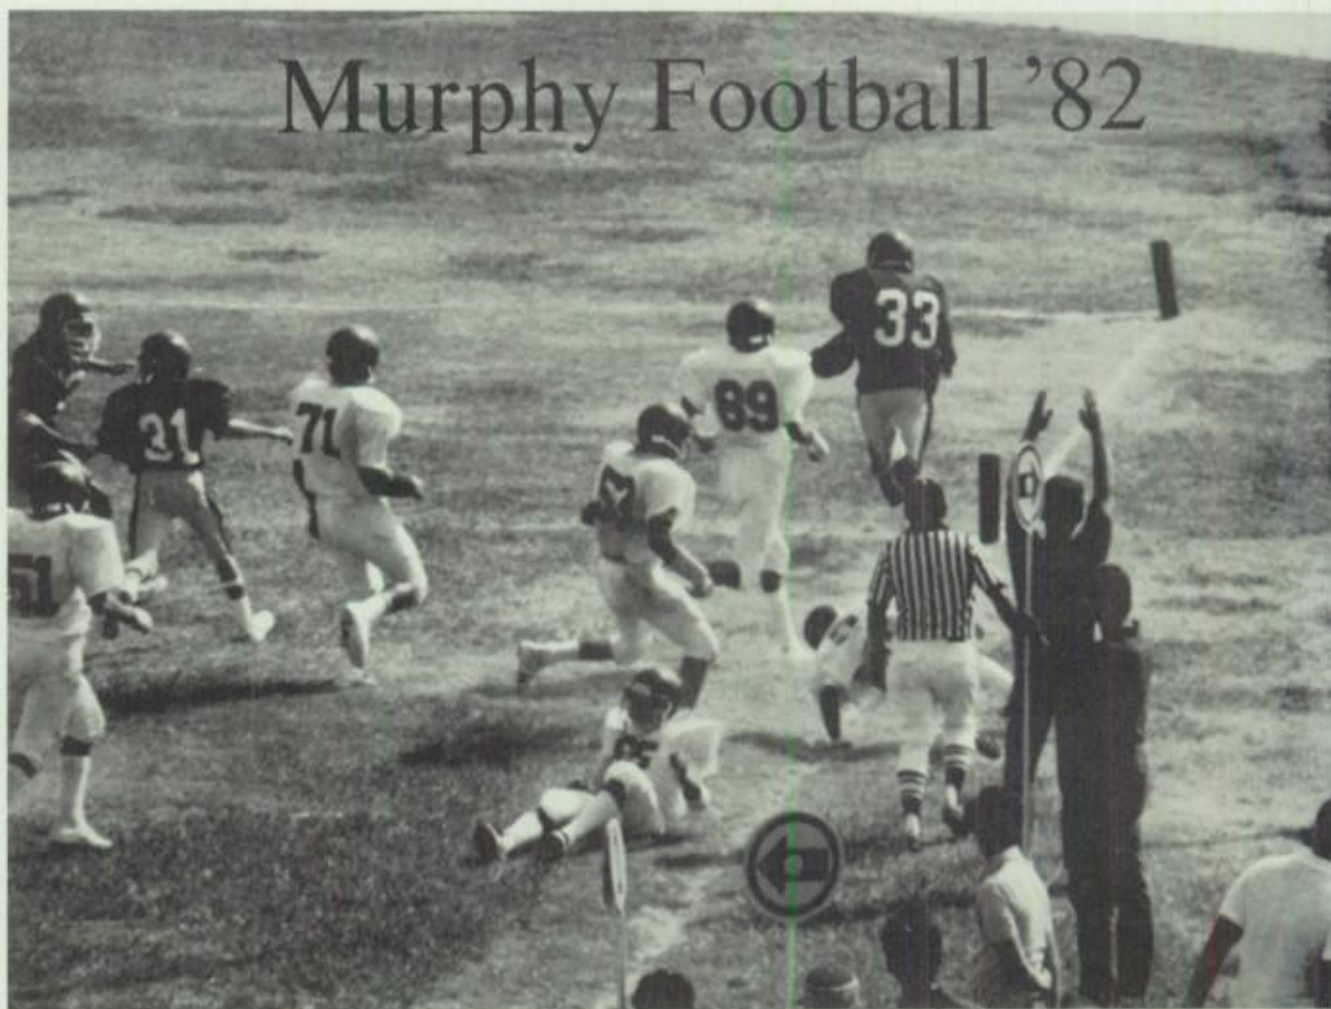

The offense was based around the consistent running performance of Victor Jackson and the spectacular as well as versatile athletic talents of quarterback-tight-end Kevin Harper.

The Nobles finished the season with a record of seven wins and only one loss, the only loss being to Bishop Montgomery High School which transferred this year from the powerhouse Angelus League to our own Camino Real League.

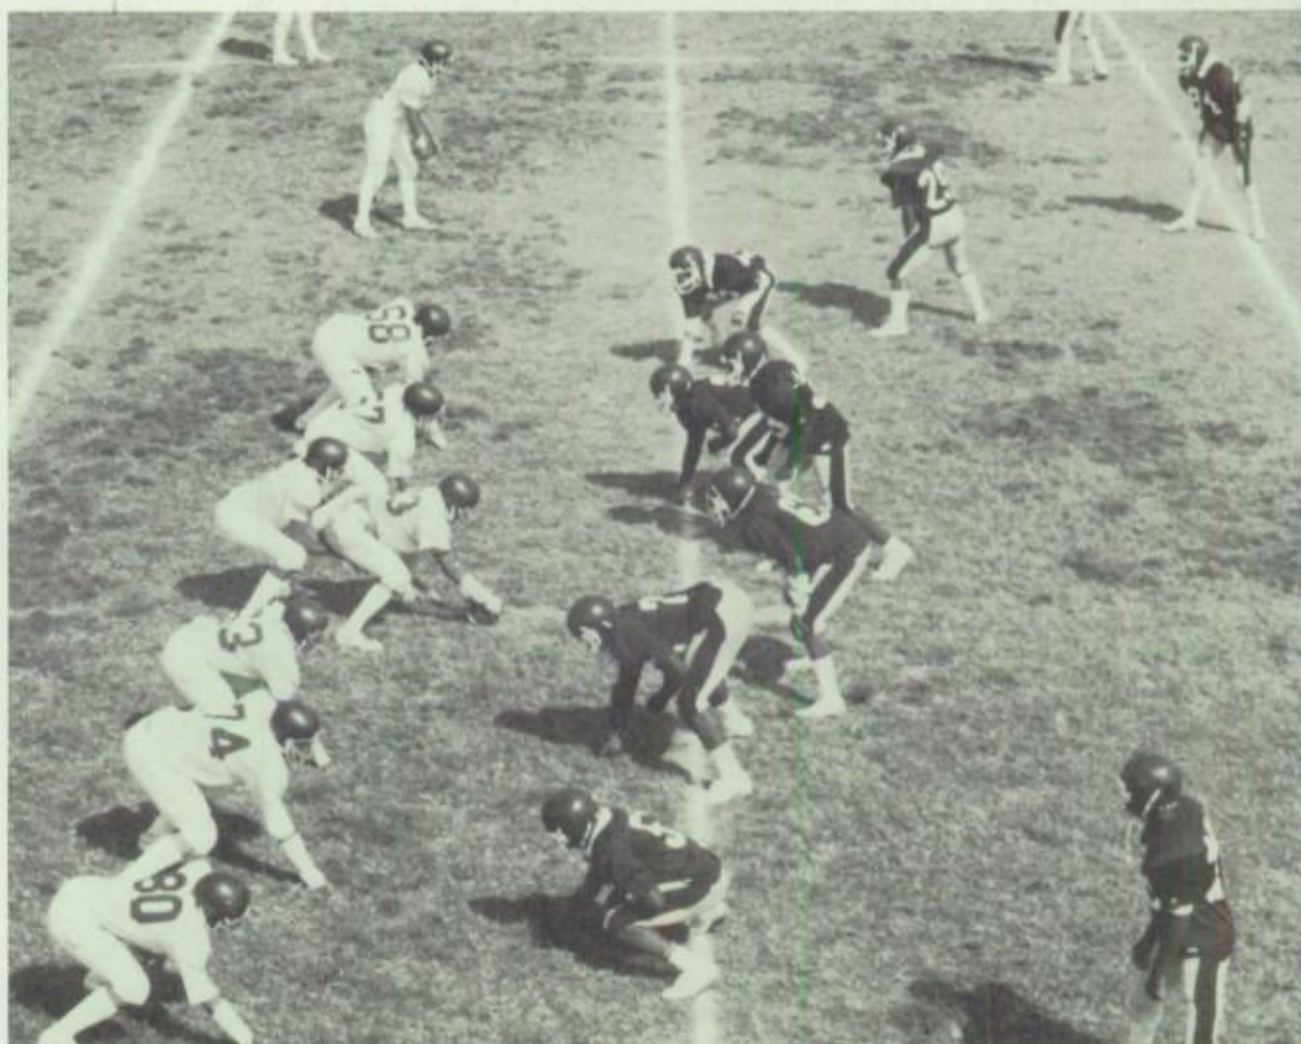

Crowd support for the Frosh-Soph games was marvelous, considering the residual feelings of resentment from the Senior Class after their varsity was dropped during Hell-Week.

The Seniors see great promise in our Sophomores and Freshmen athletically, spiritually, and intellectually. If we can leave them nothing else, we leave them our prayers and our sincere hopes for their success in the future.

Varsity Basketball

This year's Varsity Basketball team experienced a season of changes. This, being the second year Coach Jim Tinker has had the team, many of the varsity from last year did not return. Returning starters were Harold Henderson, and Bernard Thomas.

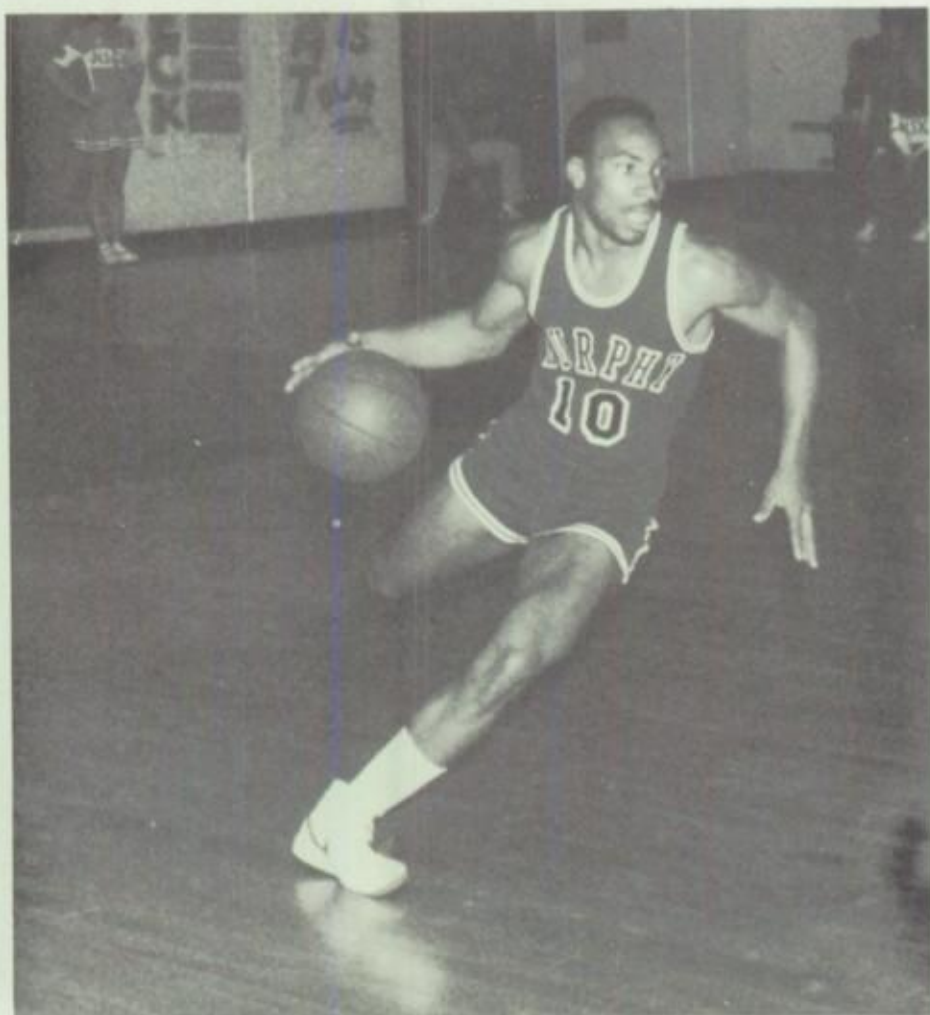

Underclassmen, who will return next year are: Trent Asberry, James Bledsoe, and others.

Commraderie Pride Loyalty

The soccer program here at Daniel Murphy is now in its seventh year of existence. Ever since Murphy's very first soccer team that went 13-2 (13 consecutive wins), all our soccer teams have had successful seasons. Last year our soccer program reached its peak with winning of the Camino Real League Soccer Championship title, and then going as far as the second round in the C.I.F. play-offs.

Alumnus Javier Arguello, the new soccer coach, dedicated much of his time and energy for the team. His early team practices consisted of running, running, and more running. It was this running that began to see the number of soccer team hopefuls dwindle. A few times this season the team had to play shorthanded because of the lack of players.

There was much talent on this year's team. Five of the team's members, half the starting lineup, were honored for their outstanding play. Seniors John Fovos, Jose Aldrete, and Orlando Canton were named to the Second Team All League, while senior team captains Hondo Sotelo and Kevin Schilling were named to the First Team All League for the third straight year. Kevin Schilling was also named to the third team All-C.I.F. an honor certainly worthy of the team's superb goalkeeper. The Senior Class of 1983 was the most instrumental in any success the team had this year.

Even though they didn't have such a great season, the Murphy Nobles did learn a great deal of how to play the game. The more games they played, the more they learned about commraderie, pride, and loyalty. It was these factors that made this team great. This year's Varsity Soccer team had won their greatest victory before the first game.

Baseball Teamwork, and Friendship

It had been said that the shortest distance between two points is a straight line. If this is true of the distance between winning and losing, the 1983 Baseball program took a lot of wrong turns. I doubt if we could have gotten from home to first without a roadmap. A lot was expected from this team that missed the play-offs last year by one game, but something happened on the way to Dodger Stadium. With returning upperclassmen such as Robert Rochon and Royal Clayton joining three other solid seniors, and with James Bledsoe and Trent Asberry a little more seasoned, we took a lot for granted. Many things went wrong, but I'm not Casey Stengel, so don't ask me. Coach Yarrington gained valuable experience in his first year of coaching, Coach DelMonte's effort was much appreciated at the JV level. We all learned a lot about baseball, teamwork, and friendship. And after the last pitch is thrown and the final out is made, isn't learning what it's all about?

First Year Team Takes League Title

Let's see, three hundred words on Murphy's first year of CIF Volleyball. O.K. 4-2 offense, mintonette, middle man back, dink, cover the spike. No this won't work. Try something else. Setter Matt Prior — Good hands. Who else for captain? I wish he were taller. Setter Peter King — Why does he always dump the ball when the other team is ready? At least he has learned to cover. I know you want to be a spiker. Spiker Jim Call — JC, I'm the coach. Thanks for your key. League MVP all the way. Spiker Mike McKinney — Zaph, you popped the ball! Young man, if you could only jump and keep your left arm up! Cut me, Mike. Spiker Rolan Mercado — Left handers are important. You are up too early. Keep working on your serve. Spiker Tadas Dabsys — It is not my fault your grades went down. Hit harder, the other team wants to forfeit because you are too tall. Spiker Andrew Hunter — Hit the ball in front of you, your mom has got to see the game. Do I have to let you play backrow next year. Backcourt Specialist Brian Tanaka — Yes, I do know which one is which. Please keep your serve in, nice set. Backcourt Specialist John Hajny — Nice serve, come on DIVE! What's the excuse this time. Backcourt Specialist Gene Lim — Most effective server on the team. Good hit down the line, first serve now don't hit it in the OH NO! Backcourt Specialist Mike Tanaka — Thanks, you made the ultimate sacrifice. Best diver on the team, if you can't cover the entire court. You really do like Jim, don't you? Spiker Kevin Fitzgerald — I thought you had serving down. Nice spike, now hit it harder. Reach Backcourt Ray Nailog — Yes Ray, there is a game today. Nice dig, now work on your dive. Raul Apodaca — Don't worry, the other team won't know a good set from a bad set. Jump, whose ball is that? Backcourt George Leon — I know George, another student council meeting. Good pass, now you hit. This year's manager ... Next year's manager, Gary Obligacion — Can you identify these gyms? — The barn, pop, sssssssss. Our first match, who forgot the volleyballs? What wire? This net is high! Don't worry, the sand on the floor will keep you from jumping. Caroms off the rafters; the rubber room, don't dive, backboards are out of bounds.

The beginning of the Track team of 1983 was a very questionable one. Though not in the sense of talent, but rather in the sense that there were very few members on the team. This obstacle did not dampen the spirits of the track team, instead each individual worked himself to become the best athlete possible. Too many times people have waited until their Junior and Senior years to come out for track.

The efforts of one student should be recognized. His name is Kevin Jackson, who earlier in the year had broken his ankle, and was not expected to return. Yet with his courage and determination he inspired each member of the team to perform his best, while showing an excellent performance during the season himself. The track team was a very close-knit organization caring about each other.

The number of people as mentioned earlier was limited at first to about 16 team members, but with the enthusiastic support of several coaches the size of the team gradually increased to 49 members. With these people Coach Mathews formed this year's track program. Coach Mathews led the JV team through an impressive 7-1 season. The team performed very well at league finals this year. For the second year in a row Murphy has a league champion in the 100m, Dino Kukos, who also finished second in the 200, second in the 400 meter relay, and ran on a blistering leg on the Mile relay for second place. This gave him a total of 1 gold and 3 silver medals. Juan Quezada did well also as he finished 4th in the 100, 5th in the 200, and ran both relays. Brian Allen finished 3rd in the 300 low hurdles, 3rd in the 400 meter dash and he too ran in both relays. Kevin Harper finished 5th in the 400. Kevin Jones ran the Mile relay. Milton Wilson placed 1st in the shot put breaking the school in the shot at the Frosh/Soph and J.V. levels by 4 feet. Byron Hithe took third in the High Jump, and Peter Brown finished 3rd in the Pole Vault. Also, Richard Hicks ran in the 400 relay.

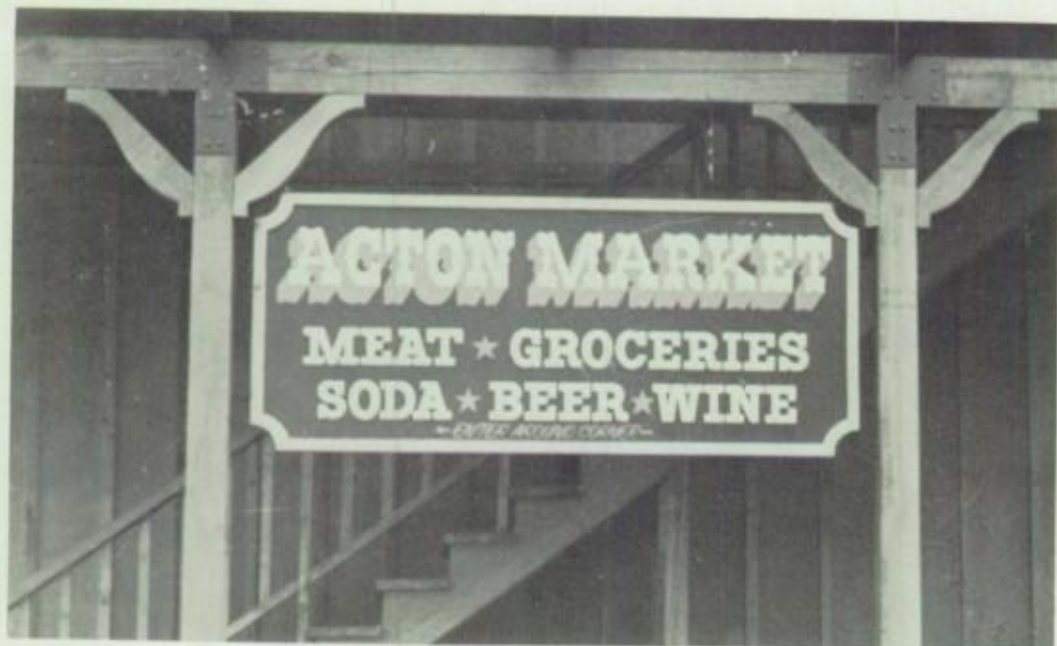

This year's Varsity team was not as impressive as the JV team. The Varsity finished the year with a 3-4 record and 4th in league. The Varsity results were not as good as the Frosh/Soph but there are some respective achievements. The Varsity team sent only one person to CIF competition this year, Randy Jacobs, who placed 2nd in the 2 mile and 4th in the mile. Kevin Schilling finished 4th in the 200 and in doing so set a new school record. It is too bad that these were the only three people to receive medals at the Varsity level.

Both teams did well this year and we can say that each one of the members won a great deal, for some they were victories, but for all it was maturity.

Hitting a golf ball straight and true is like lobbing a fullcourt swisher. Congratulations, therefore, are in order for the 1983 Golf Team under the direction of Coach Tinker for their valiant efforts to put that little ball into that little hole. Led by All-League Junior Joey Hentz and All-League Hacker George West, who accomplished what most golfers only dream of — a hole-in-one — the team competed in some 17 matches on courses throughout the greater Los Angeles area. Supporting Hentz and West were Sam Onda, who received the Most Improved award, Stan "Jumbo Jack" Marker, a Freshman who makes pars the easy way — with 30-foot putts, improving players Jon Stolfi, Frank Modelo, Alan Wataguchi, Ken Sackett, David Gerber, Mark Smith, and least of all (only in size) Tim Lewis.

Prospects seem outstanding for next year's team with Hentz, one of the league's finest players, and West, Onda, and Marker returning to straighten the dog-legs, avoid the traps (and other golfers), get the birdies and drop the putts. Rumor has it that Steve Cedrun will finally take Coach Matthew's advice and come out for the team as well. Could this be? Congratulations to all the golfers — keep swinging!

New Team Achieves Goals

Daniel Murphy's tennis team started the season in high spirits and with high dreams. It more than made up for its lack of individual talents with enthusiasm and hard work in practice and during the actual games.

Tennis was a newcomer to Murphy, considering that we never had such a team during the last eight years. For Mr. Cuthbertson, the coach, it was his first crack at the job. But his brilliant performance during the season indicated that he could have been a coach all his life. Of course, he had solid credentials as a varsity player at Cathedral High School. He set out three main objectives which were all attained in a substantial way: to develop tennis as a regular sports activity at Murphy, to win most, if not all, of the games; and to have fun in the process.

As the team draws its plans for 1984, it shall be missing the services of three seniors who will be graduating this year: Angelo Fernandez, Tony Highshaw and Hok Dju-Lim. On the other hand, there is great promise for those who will still be around in Murphy for the years to come: Emilio Fernandez, Scott Saito, Mike Ahn, David Kang, Jose Velasco, Joon Pak, and Robert Ducut. Being only sophomores, they still have two years to participate on the team.

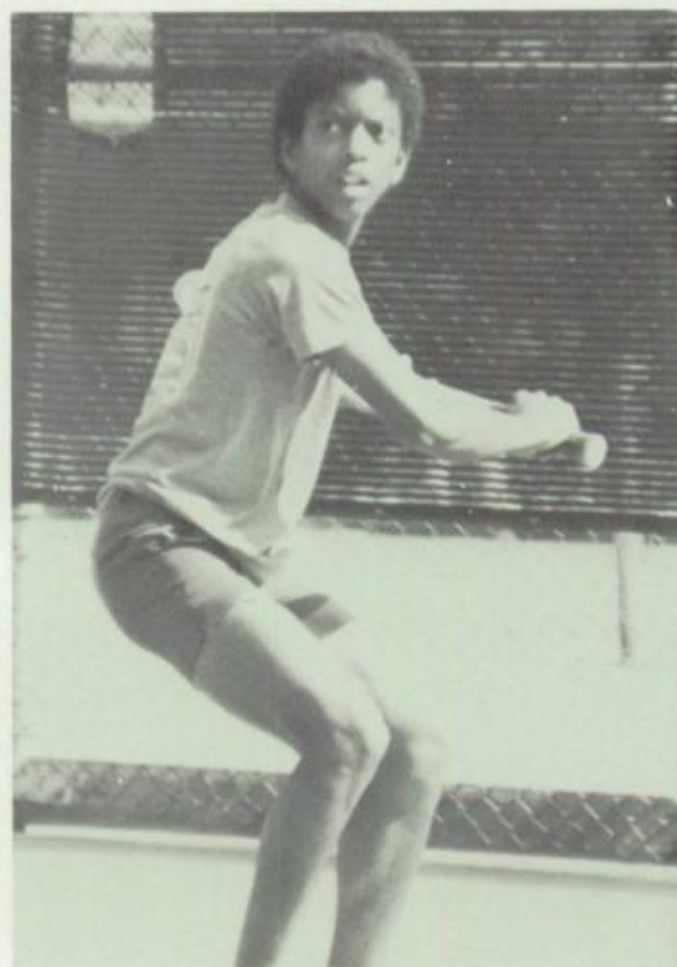

Starting as a free-lancer in the C.I.F. this year, the team hopes to compete in the Santa Fe League next year alongside La Salle, Cathedral, Bell-Jeff, St. Genevieve's and Charminade.

As a tribute to the coach and all its members, Murphy's brand new tennis team had an impressive seven wins, including two forfeited games, and eight losses. An incredible feat, indeed.

A Short Note for a New Team

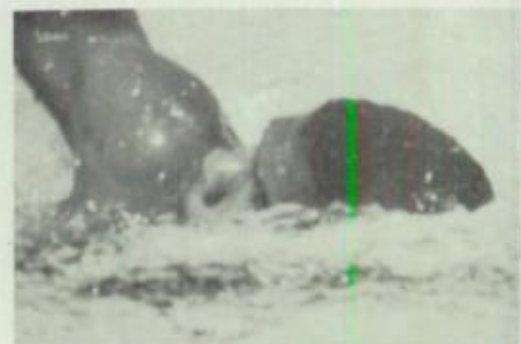

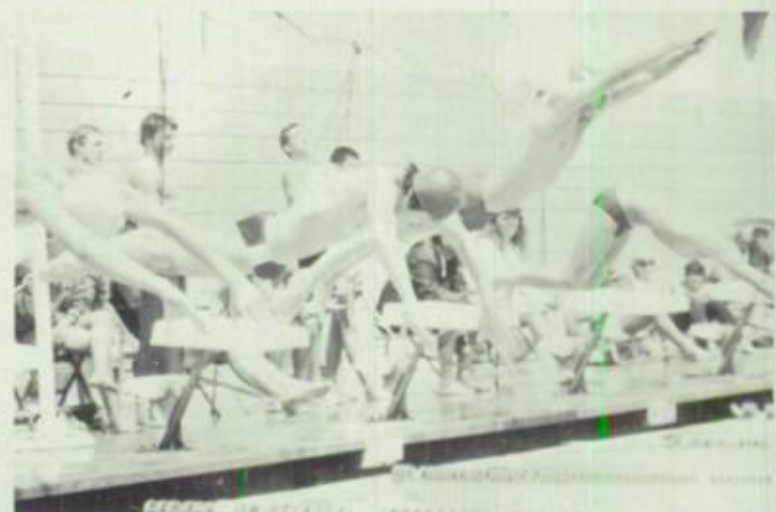

According to the dictionary, to swim means to move through water with the help of the motions of the hands, arms and feet. But that is the dictionary's point of view. To the swimmers of our school, swimming for Daniel Murphy Catholic High School was a marvelous experience. Of course, like everyone else, we did have our ups and downs, but led by our great coaches, Edward Carlson ("Ed.") and John D. Lynch ("John"), the swim team was able to find themselves in many victories. The team was able to accomplish much in that it broke several school swim records, and ended with a season of 5-7. But these victories were not only in swim meets, they were victories also found in the team itself. The victory of knowing we had been part of a team where the main objective was not to win, but to always do your very best. We thank YOU, the school, for your support, and we all hope that in the years to come, many other individuals will come out for the team to make it even more successful than it was this year!!!

BACK TO SCHOOL BAR-BE-CUE

A Dinner for Ambassadors

Good food and a jovial ambiance characterized this year's Back-to-School Barbeque. With its social atmosphere, the Barbeque has become an event to be looked forward to each year. The festivity allows for parents, students, faculty, and friends to become acquainted in a highly causal atmosphere.

The Barbeque went off like clockwork this year. With the help of the Booster Club, Mother's Club, Knights of Columbus, and the Student Council, it was a very festive occasion. The evening began with a mass celebrated in St. John Vianny Chapel by Father Leslie Esposito. The crowds then walked to the school picnic grounds. As the evening passed, laughter could be heard in the air as everyone relaxed and the adults began to use the open bar. So many guests were served, that a new supply of steaks had to be brought in to satisfy awaiting appetites. Many met for the first time, a few became good friends, and all seemed to have enjoyed themselves. It is hoped that next year's event will be as successful and enjoyable as it was this year.

FROSH BECOME NOBLES

Fr. Burton preparing for the ceremony.

"I don't like to hold hands on the first date"

Another perfect match!

Freshmen cannot truly be called Nobles until the end of that week in September known as Noble Week. Noble Week initiates and welcomes the Frosh by having them declare their citizenship as Nobles by participating in a week of exercise and activities.

On the first day of Noble Week the freshmen were introduced to their anxious seniors. The freshmen were told, if not threatened, to take seniors books to their classes. Freshmen wore ties and had to know the Alma Mater and the Noble Creed, or they would feel sorry later that week.

Noble Tuesday some freshmen thought went a bit too far, since many of them were bound to trees and railings in the Senior Court, while others only had to carry their seniors books to class.

The third day of Noble week, Wednesday, was when the brightest ideas were used on the freshmen. Three examples of these activities were: Jim Call and his sleigh dog, Richard Pender with his trained monkey act, and Jason Burton performing the ceremonies for freshmen to get married. But these activities were only the side show to the main attraction, the "Great Shoe-In." The shoe-in was a great laugh, especially when a freshman seen looking for his shoes, would perchance sight one flying overhead. It was sight that will provide humorous memories for years to come.

Jim Call leaving on his Polar Expedition Below: "and I promise to never step on the Senior Court . . ."

"You said Seniors are what?"

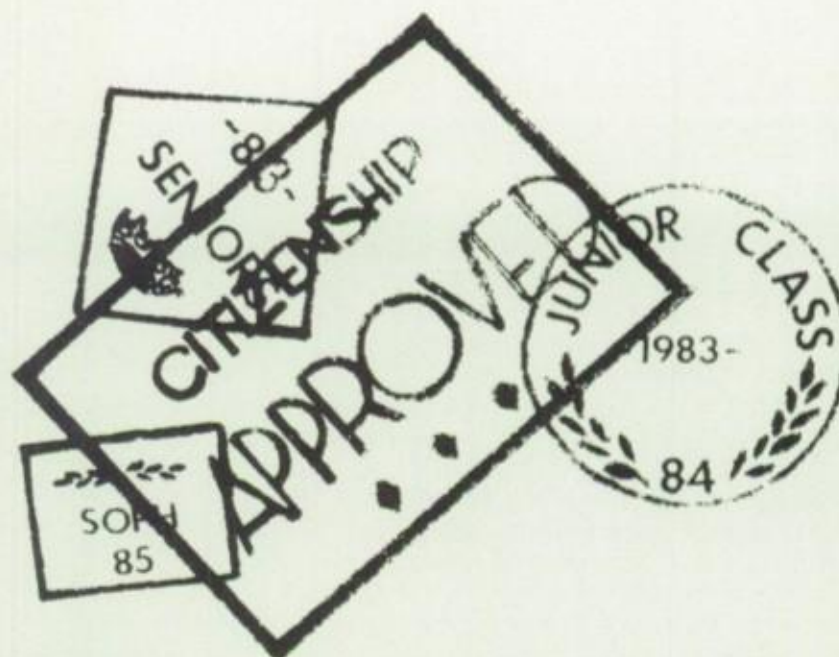

I think you hurt this one Kevin!

"O'Brien, teach your Frosh how to wear a tie!"

Another happy couple.

The Freshmen-Senior picnic this year held at Cheviot Hills Park was a great success. The seniors not only became friends with a few of the frosh whom they had been initiating all week, but they discovered that a few of them, in fact most, are good people. With all the new traditions at Daniel Murphy, including the picnic this year, it was comforting for those graduating to know that the class of '86 has so much potential. Lunch was graciously provided by Martie Mathews and Company.

The last day of Noble Week brought forth the ultimate of surprises. During lunch the student body was entertained with the annual pie eating contest, the tradition where the freshmen proved just how American they were. The result, faces were covered with mounds of whip cream that day. Another attraction was the variety of costumes that were present. The creature of the Black Lagoon arose from the deep, also viewed was another frosh in a gorilla mask. The seniors truly proved their upperclassmanship. As for the freshmen, they were congratulated for their endurance at an assembly later that day.

A Look at Murphy's 1983 Dances

What has several hundred feet, flashing lights, and rocks to the latest beat? A Daniel Murphy High School dance, that's what! The traditional dances this year were no exception. They were successful in more ways than one, however. They not only brought in money for the school, but also proved a point.

At the end of last year didn't we hear that DMHS was going to have "sorry" dances? Didn't we hear that because of the attendance of people from certain other schools, everyone would be "afraid" to come to our dances? Well, if the answer to either of these questions was yes, this year's dances changed it to a resounding, "No!"

Yep, the Noble dances were a success. They showed that we can have "mixed" dances. They showed that we can draw people to our dances. And most importantly, they showed that Daniel Murphy High School still has some of the best high school dances in L.A.!!!

Mardi Gras Homecoming

The 1983 Daniel Murphy Mardi Gras was a smashing success. It was different from homecoming of years past because it occurred during basketball season instead of football season. The festivities started with a spirited rally on a Friday, during which time the yell leaders introduced their "contestants" for the Homecoming Court. Fortunately, the "girls" and their escorts were disqualified after being terminated by our own Blues Brothers, Seniors Jason Burton and Jim Call. The remaining contestants for the court were then introduced by M.C. John Grinstead. After the female nominees paraded around the gym, the student body voted and then left to prepare for that night's festivities.

That evening, with much fanfare and elegance, the nominees assembled in the gym. After introducing the contestants to the audience, M.C. John Grinstead announced those who the Murphy student body had chosen to be members of the court. One by one the Princesses and Knights came forward to take their place in the court. Then came the special moment. First the Homecoming King, and then the Homecoming Queen were announced. Both King Rolando Sotelo and Queen Sandy Cimadoro came forward to take their places of honor, the Queen was crowned and both then received their awards. With the court formed around them, and the Murphy Noble and his Squire guarding them, crowned Queen Sandy Cimadoro and King Rolando Sotelo sat on their throws for all to cheer.

PEP RALLIES: NOBLEMANIA

This was the year of Noblemania. Although slow in starting, school spirit was soon thriving all over campus. With the hard work of the Pep Club, the Cheerleaders, and the Yell Leaders, the rallies always aroused support for the athletic teams. From the excitement and craziness of the Anti-Loyola rally, to the richness and beauty of Homecoming, the rallies showed the creativeness and spitt of the Murphy Nation. The Mighty Noble returned this year along with his squire who made his debut. Laughter roared as everyone watched the Blues Brothers present their continuing saga of hilarious antics. The gym was always decorated with large "battle crying" posters, and we were able to view Mr. Carter's innovative machine display, the Murphy Noble at work. Sporadic bursts of insanity were also present at the rallies, as evident from one example when a flashing Senior would ask the cheering crowds if they wanted small pieces of Randy Candy. The rallies certainly added much to this school year.

For the Love

This year the Shakespeare Society of Daniel Murphy High School presented, *For the Love of Shakespeare*. This collage of Shakespeare's finest love scenes included: Charles Siolek and Mary Lou Pollard as the young Romeo and Juliet, Arnold Castaneda and Janet Cruz-Herrera were run away lovers in "The Merchant of Venice" which included Teague Clement, David May and Luchy Garcia played the parts of troubled lovers in a scene from "Hamlet," jealous love was dramatized by Rod Gomez and Liz Guitierres from the classic "Othello," and John Grinstead won Kim Meyers love in Shakespeare's "The Taming of the Shrew."

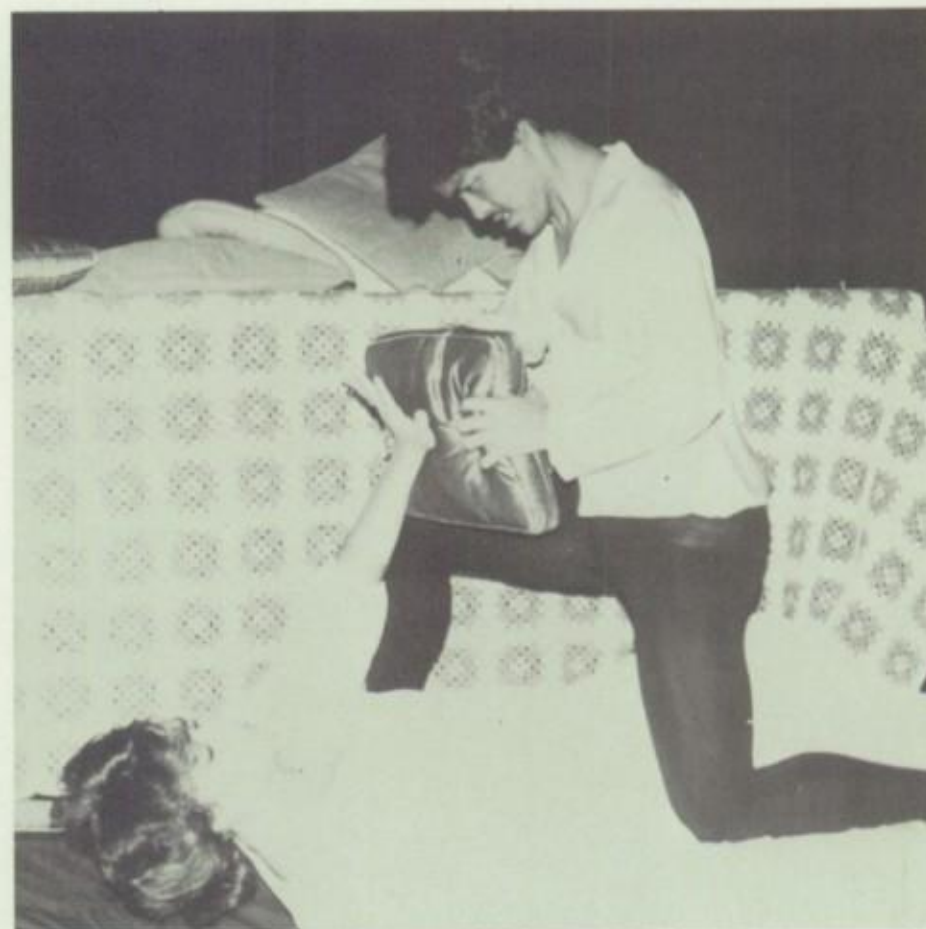

The unsung heroes

The LOVE triangle

of Shakespeare

Theatrical productions at Daniel Murphy have a tradition of excellence, and *For the Love of Shakespeare* was no exception. The newly created Shakespeare Society beginning with little resources but a lot of motivation was able to produce an absolute success. Much credit should be given to their dedicated moderator and director, Richard Salassi.

Late for rehearsal AGAIN!

The Way, the Truth, the Life.

This is the word of the Lord.

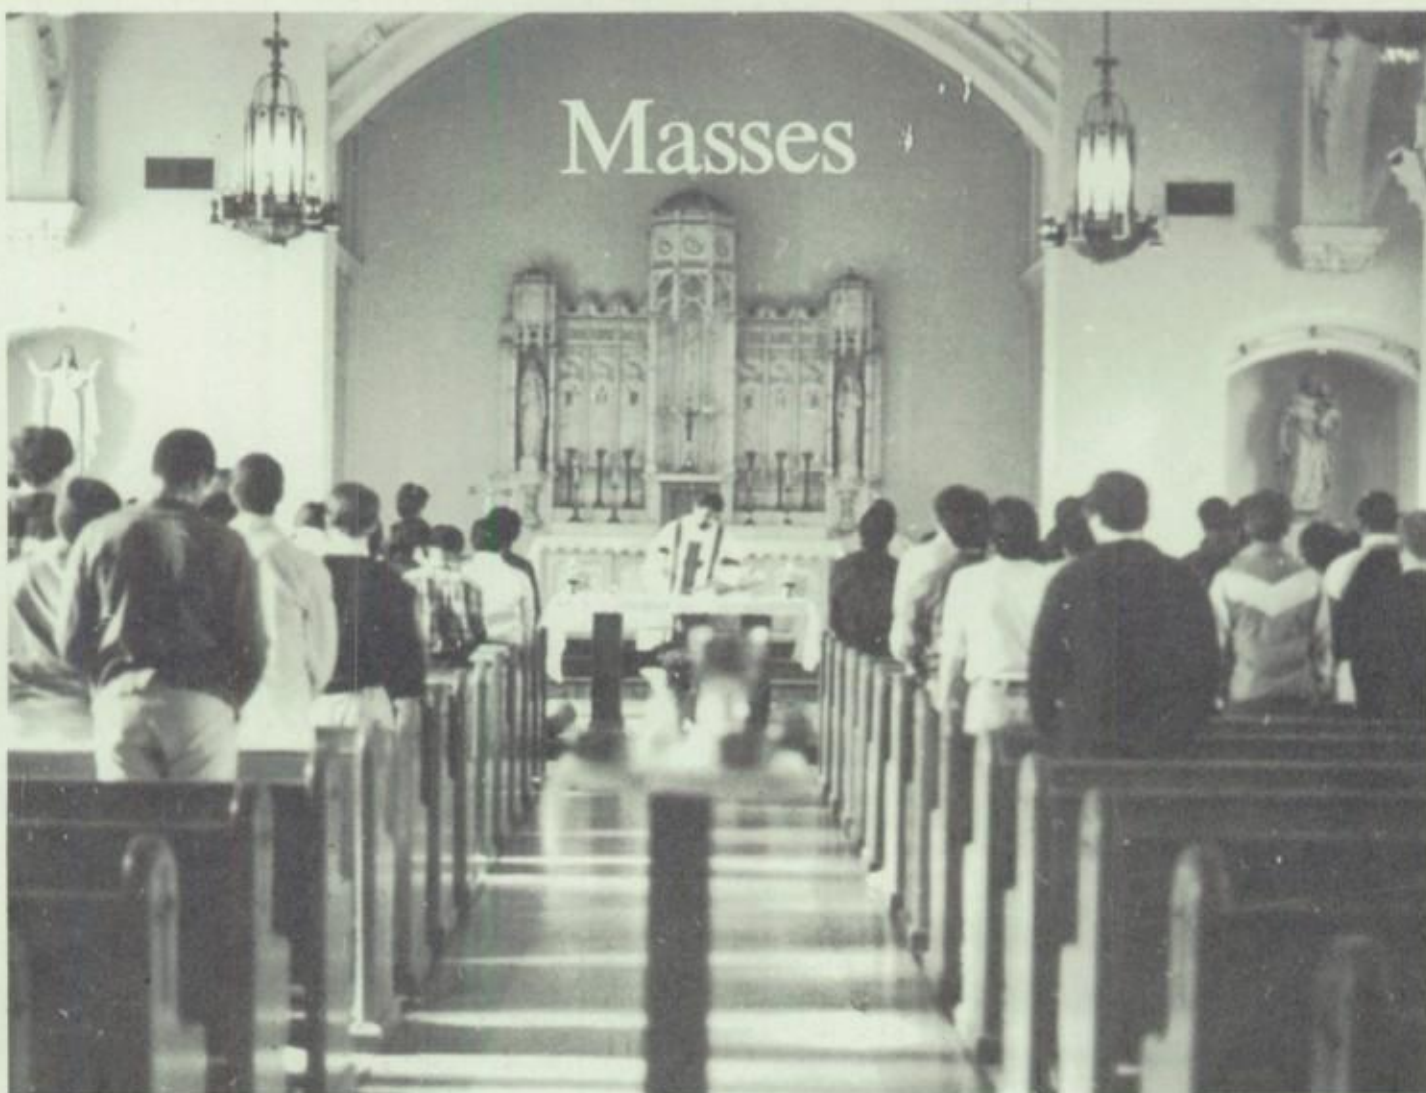

We lift up our hearts.

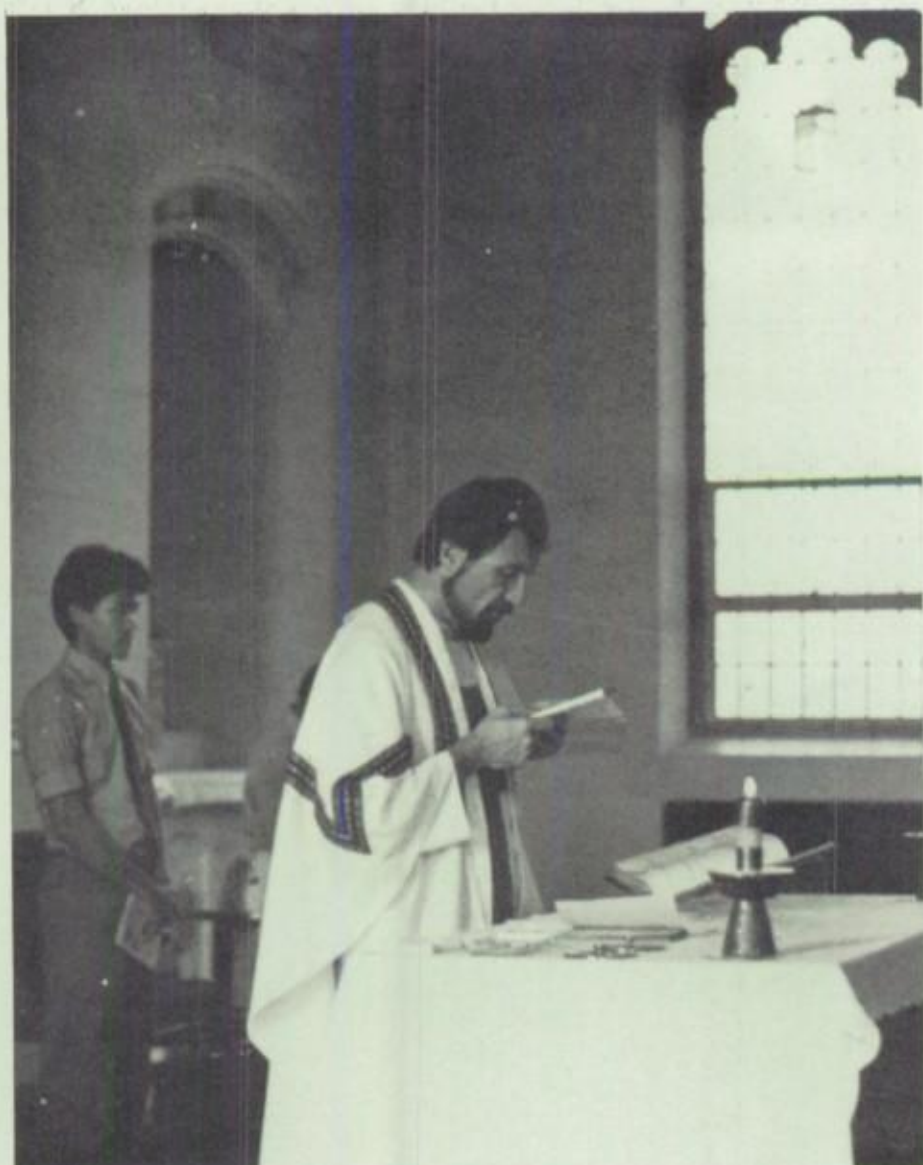

Shh! Listen.

Masses are always special events at Murphy. Everyone comes together like brother and sisters to praise God. The masses this year were said by Father Esposito who could really put meaning and feeling into the words of our Lord. Although mass lasts only a short while, its effects continue to linger on. The chapel where mass is said is small, but with the love of God it becomes as large as a Cathedral. Masses at Murphy are something you have to witness for yourself, an experience that cannot really be explained in words.

The Seniors and Frosh attend mass.

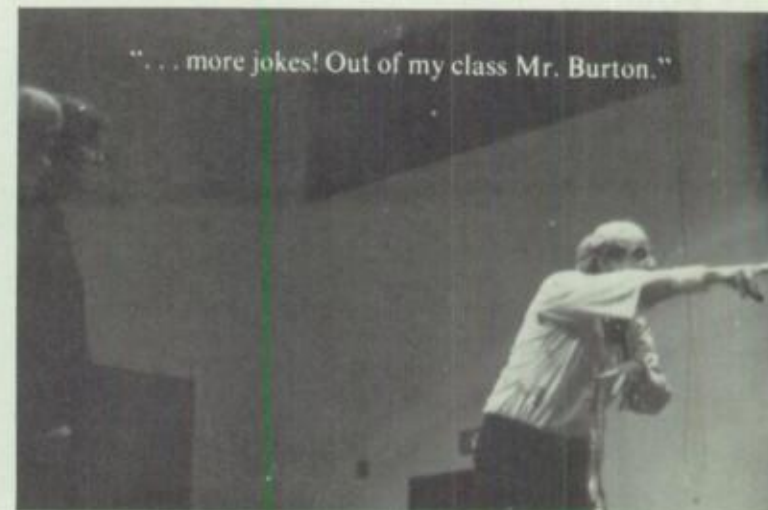

Let us pray

CARNIVAL

NEW YORK TONY AWARD WINNER • BEST MUSICAL OF THE SEASON

CAST AND CREW — In the puppet booth; Tadas Dabsys in the back, from left to right in the front: George Leon, Nita Burrell, and Jim Baklayan. On the stage, back row from left to right: Jon Stolfi, Andre DuMolt, Hilary Crahan, David May, Bridgette Capdeville, Director J. E. Michael Yuhasz, Arturo Davila, Ernie Munoz, Andy Soemardi, Tim Smith, Raul Apodaca, and Lily Fruhwald. Second row from left to right: Rod Gomez, Jim Call, Marya Wrzesinski, Bernadette Ceballos, Julia Oliva, Michael McKinney, Matthew Prior, Albert Leon, and Brian Tanaka. Front row from left to right: Alan Nakagawa, Michael Tanaka, David Moser, and Kathleen Johnson. **Missing:** Bernard Ceballos, Tom Blumenthal, Mr. Robert Gliddon, Mr. Gary Carter, Larry Clark, Jonas Aras, Frank Duerr, Matthew Campos, Gary Obligation, and Mario Marino.

Director's Notes:

When Carnival succeeded, many frustrations, several nervous breakdowns, and a believing cast were behind the success. Because there were so many different schools involved with this production — four colleges and five high schools — it seemed no one had a workable schedule compatible with anyone else's schedule. Rehearsals were constantly delayed, postponed, cancelled, or called at the last minute.

Our first full rehearsal with band, cast, and crew was held only three days before our first performance for an audience. Just one week before our opening night, the Cathedral Chapel Auditorium was closed to us because of a rummage sale. Sets were being constructed at the Murphy campus and transported to the stage barely on time for the cast to see them before the audience did. The paint was still wet on some sets as the curtain went up.

Our choreographers, Bernard Ceballos and Andre DuMolt, had to create their miracle between the barbells at the Murphy weight room where they were forced to practice. They constantly assured me that everything would be all right. I didn't believe them for a second — after all, they're under thirty! They proved me wrong. My Technical Director, Jim Call, kept telling me not to worry and that sets would actually materialize for the shows. "Liar!" I would scream. But, there they were. Kathy Johnson and David Moser promised me music for the opening curtain. Oh! me of little faith. I tried to create ways of putting on the musical without music. But Vincente, Jeff, and Jonas brought their instruments and it was truly music to my ears.

Everyone told me that the show had to go on. I asked, "Why?" Despite all the chaos, the cast and crew remained confident, at least most of the time. Gifts of valium were the most treasured.

However, miracles still happen and CARNIVAL came to life for the first time at 7 p.m. on Wednesday, March 23. The truly talented cast and crew presented me with a magnificent finished product. We presented to you a fabulous carnival of songs and dance and hope you shared in the magic. I believe it was a high school production to rival the best you had ever seen. I loved working with the theatrical group and I know you loved watching them perform.

— Mike Yuhasz

"... and if we make a hole right here, we can see right into the girls dressing room."

"... and now it's time to say goodbye ..."

"I heard Soemardi is taking you to the prom."

"... now what was my next line ..."

"Felipe is going to ask you to a party."

"Maybe I'll go out with you next week."

Tom in his grad suit.

Vests forever.

"Which way should I go?" "That way."

The Night of the Prom

This year's Junior/Senior Prom was held at the Hyatt Regency Hotel. There was an air of formality as Murphy's young men displayed their dates and introduced them to the faculty. But no one could have been prouder than Matthew Campos as he escorted his date, Marylou Pollard, Daniel Murphy's 1983 Prom Queen. Certainly no other girl could have deserved this title more. No prom could of course be without a prom court. The runners-up were Bernadette Ceballos and escort Andy Soemardi; Annette Seldana and escort Many Vara; and Leslie Sykes escorted by Taj Lewis.

None of this could have happened without the careful organization of Mr. Yuhasz, Mr. Carter, Gary Obligacion, Many Vara, Lloyd Glenn, and Ruben Gonzalez. Despite the last minute change from the Beverly Hilton to the Hyatt Regency, the Prom couldn't have gone any smoother. One-hundred couples danced into the evening with music provided by a popular Mod/Ska band, "The Telefonos." One of the more popular dance couples present was the team of Esposito and Skurla which, by no doubt, rivals that of the legendary Astaire and Rogers.

The Prom ended around midnight, but the night was still young as everyone headed for the after-prom parties. Teachers and students alike celebrated in smoke-filled rooms lined from wall to wall with bottles of champagne. Among the memorable characters of the evening were Peter King and his "Vans;" Mr. David "Polyester" May; Matthew's infamous collection of kisses; John Grinstead GIVING kisses; and Marylou's lovely EYES.

UNDERCLASSMEN

1983

Freshmen Class Officers

Left to Right: Anthony Claverie, Franco Frisan, Derek Duvivier, Eric Johnson.

From the four corners of the world, they came; all shapes and sizes, all different yet somewhat alike. This year, the freshmen class numbered 157. These bewildered young men gathered for the first time on September 7, 1982, ready to prepare their future endeavors.

First, we stood in an almost never ending line to buy books. On the way home, we had nothing on our mind but school and how well we were going to do. During our first two weeks of school, we all acted as if we were "perfect little angels," hoping that the teachers' first impression of us would be a lasting one. Soon after, we began getting acquainted with each other. We also became acquainted with the teachers. Later, some strange talk about "a week you'll never forget" was in the air. Then came NOBLE WEEK. Everyone was excited and anxious to learn more about this fun-filled week until we actually realized what we had to do. We had to wear a tie everyday, learn the alma mater, carry our seniors' books, and at the same time, hope to be in time for class. (These are the highlights!)

When NOBLE WEEK was over, we officially became a part of the Murphy family. Now that we are all settled down, with an A+ in every class, we just can't wait to get home, do our homework, so that afterwards, we can curl up and read Shakespeare's classic plays. Class of '86, I salute you!

Sincerely,
Eric Martin Johnson

Sophomore Class Officers

Left to Right: George Leon, Micheal Kato, Andrew Naranjo.

Sophomore year, too young to go to college presentations or to carry a mechanical drawing kit around, but too old to be condemned as a "stupid freshmen." Perhaps we are too old to do or be these things, but still able to remember.

Through the two short years (long to some), we have been at Murphy, a lot of what has been seen and said will be engraved in our minds for quite a while to come. Things unique, new, original (and strange?) which could happen only under the flag of Daniel Murphy, in the Murphy tradition.

Sure — we remember the usual places, events, and people — classrooms, dances, faculty, but it is the special things about DM which we (and others) recall best . . . Coach Hart's infamous war cry of "back it up to the base line!" (Which would promptly be followed by a sometimes severe dose red lines), a dean of students of whom everyone in the school was absolutely terrified, a bouncing ASB President, Sister Patricia's daily army-style roll-call, the unforgettable Miss Stone, David Yu's (affectionate?) greeting of "Hey neighbor!" (Whap) and a fantastic trip to Magic Mountain — these people and times combined with a student cast of crazies — made and makes our academic lives at Murphy not only memorable but, well, let's say interesting. Maybe we will all look back on this and laugh.

Sincerely,
Michael Kato

Junior Class Officers

Left to Right: Manuel Vara, Ruben Gonzales, Lloyd Glenn.

The class of '84, the Junior Class, is one I feel Daniel Murphy will long remember. Since our Freshman Year, we have matured and learned more about each other. I feel the Junior Class shows the leadership quality of Daniel Murphy. The spirit of the Nobles is strongly expressed and deeply felt in its members. As we break away from the old, we enter into a new atmosphere, an atmosphere of unity and pride. This is a class that will defend its school and conquer its challenges. "The Noble Man does Noble things, and by Noble things he stands." — Isaiah 32; 8. We, as noble men, plan to stand on this spirit. The Class of '84, is one Daniel Murphy will long remember.

Sincerely,

1983

Graduation '83

THE SUPERB CLASS OF 1983

GRADUATION 1983

The day is June 3, 1983 and the graduating class of Daniel Murphy High School stands waiting at the steps of Saint Basil's Church anxiously awaiting the commencement of the graduation mass. This mass is the first step for the Class of 1983 to be considered as "alumni" of Daniel Murphy: Here, during the mass, many graduates received the CSF award, which was a golden tassel, and the NHS award, which was a golden stole. Each of these awards recognized the recipient for doing outstanding achievement not only in academics, but also in character, leadership, and service to the community and school. Those who received these honors proudly displayed them at the time of the graduation and after mass when they photographed the graduation picture. The primary concern at that point was not the picture itself; instead the graduates tried just to keep their caps and stoles from being blown away by the wind.

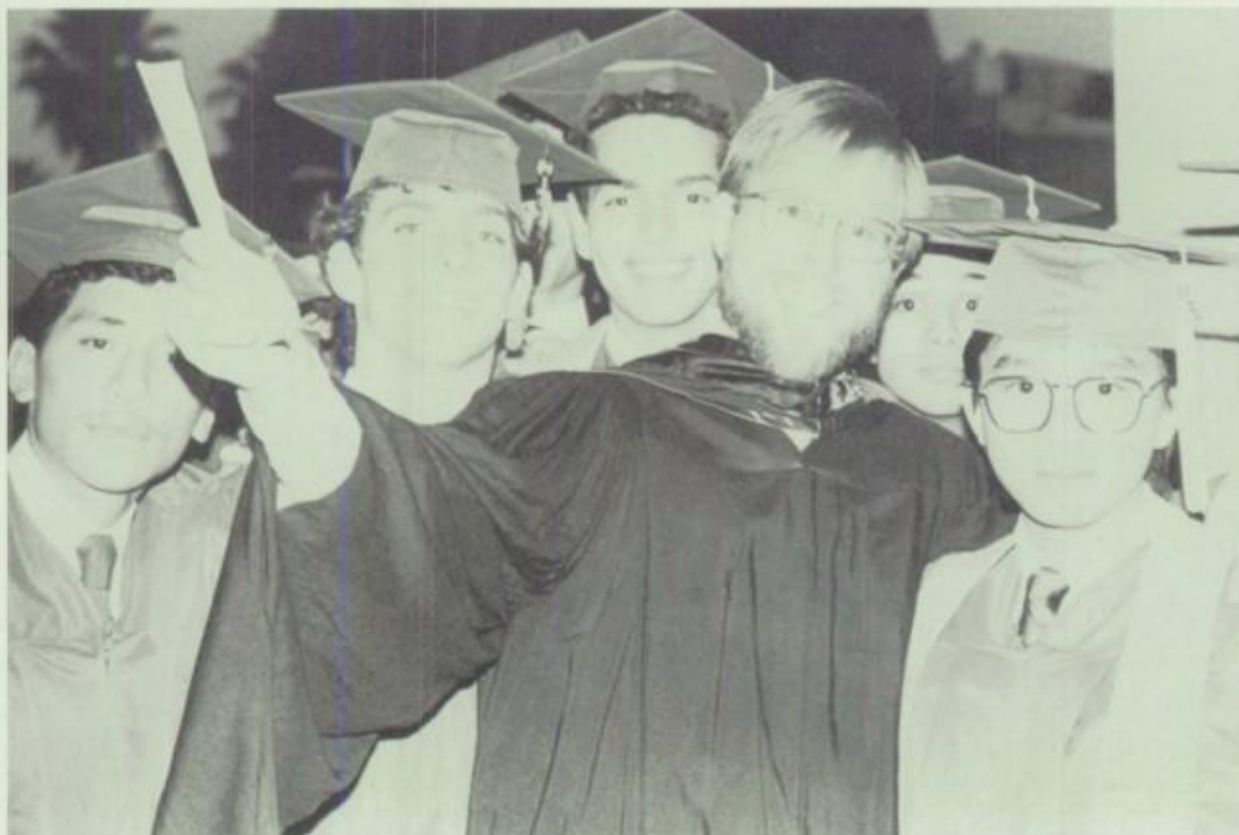

Following the mass, the graduates and their families went to the Ambassador Hotel where breakfast was served. They also were treated by the recitation of a poem by Tadas Dabsys called "Faculty on Parade," which was a recollection of our past experiences at Murphy. Arturo Davilia also addressed the congregation that day saying final farewell to the faculty and staff. Finally, Mr. Gary Carter presented a slide program expressing almost every event this past school year. It touched the hearts of many seniors. Yet, it is very difficult to leave without feeling some type of sadness in you. So once the program was over Father Leslie Esposito said his farewell to the Class of 1983 knowing that he may not ever see any of them again. Upon completion of the Graduation Brunch, the Class of 1983 nervously awaited the coming of the Graduation Ceremony. A ceremony each one of them had prepared for, not only a week earlier, but for the past four years.

The Graduation of 1983 will long be remembered not only by the Class of 1983, but also by the hundreds of people who had attended the ceremony. The grandeur of Blessed Sacrament Church and the beauty of the tune of "Pomp and Circumstance" formed an electricity of excitement around the occupants of the church. This was a day everyone was waiting, because it symbolizes a very important factor of life which is "growth." One speaker who has spoken about growth was Sister Cecilia Louise Moore, C.S.J., Ph.D., Assistant Superintendent of Secondary Schools in the Archdiocese of Los Angeles, who not only spoke about growth, but also our future, friends, and to be able to "phone home" while in college. The graduates also heard the greetings from His Eminence Cardinal Manning from Rev. Monsignor Jeremiah T. Murphy, Superintendent of Secondary Schools in the Archdiocese of Los Angeles and Julmar Buenaflor and Tadas Dabsys who gave their valedictory and salutatory addresses.

Finally, after the farewell speeches of the guests, Sister Saint George, Father Leslie Esposito, Monsignor Murphy, and Mr. Michael Yuhasz conferred the diplomas and awards on the graduates. At this time jubilation struck the hearts of the graduates, because they had accomplished a difficult task. Yet, with graduation they face a more difficult task and that is life. Good luck!

What experiments! Hard college life, I'll really try, Marami Pong Salamat Mama & Papa

ARNOLD CASTANEDA

When I started as a freshman long ago, I had fears that had to go; fears of shyness and self-doubt. Thus began my battle for supremacy and the dream of a dreamer too high to reach I fought fiercely on the field of battle. The Field of Athletics was a terror to climb (Ftbl 123 & other events) as well as the clubs (IRON LEAGUE, STUDENT COUNCIL 1234; VP; etc.) Which was difficult to breech. Yet the most terroring field was the FIELD OF ACADEMICS (Thanks teachers for 4 traumatic yrs) That was the final battle. Now I fear no fear; but fear, fears me I have conquered it and I am "Master of Power"

JAI HO CHOI

I, Jai Choi, have done so many great invisible things for the past 4 years at Murphy. Unfortunately nobody ever appreciated the things that I did for this school. I will be leaving the school without any fame or glories. But for sure I will come back to this school after 10 years. And when I come back, I will bring all the fame and glories that I was not able to achieve when I graduated. I hope all my friends have a good future. "God helps those who help themselves." Daniel Murphy has been some kind of ex-
perience. It has given me a solid foundation for a
successful college future. I have also been lucky
to participate in the school's most successful
athletic program, soccer. This team went to the
quarter finals last year and proved that Murphy
does excell in sports too. I also have enjoyed the
happy spirit which exists at Daniel Murphy.
Most of our teachers are animated and op-
timistic. I will always remember Miss Nassiff,
Mr. Delmonte and Mr. Barnes. Finally I wish all
the underclassmen a happy future at Murphy.

Although Murphy has its faults, I still feel that I have learned a lot from this school. My two main goals, as far as professions are concerned, are to become highly ranked tennis professional and to become a cardiologist later on. I want to thank Mrs. McCord for being a great understanding teacher. I also want to thank Sister St. George for preparing me for college. Also for helping me to develop my potential to becoming a better person. Also, Mr. Gallup, a fellow tennis player, See you later "Drac Pack." I hope that You guys will be successful. Though I didn't attend school regularly and as much as others, I enjoyed every moment being one of the students at Daniel Murphy High, many teachers helped me out whenever I had trouble, and I really thank them. Anyway after graduation there will be one hell of a drunk screaming for joy, which would be me. To tell everyone the truth school is a drag. And it can possibly make one ill every morning. I was very ill often, and look at me, I'm in a trouble with my attendance! Good luck all my friends! Class of '83: "The Best."

EDDIE ONRUANG

After I transfered to Murphy, it has been a great experience I'll never forget. I find Murphy to be filled with joy and sorrow; happiness and worries; good times and bad times; troubles and all. Murphy is also full of fun and excitement, all that there is. Including parties, dances, mass, exam, deficiencies and detention. Most of all, I find students here at Murphy to be friendly and fun to be with. Keep up the good work Murphy! Good Luck Nobles! So Long! I'd like to give special thanks to Mom & Dad, and also the faculty and friends for making Murphy such a great school. ****

Two years at Murphy ... Most boring Yet most precious time of my 17 years on earth. Being educated by unique and weird teachers; Mr. Gooselaw, Mr. Greene, Mr. Carey, Mr. Cuthbertson, Mr. Salassi, Sister St. George ... The days passed by so fast. Standing five months before graduation my heart fills up with memories I would never forget. My experience at Murphy will be a good foundation towards my hopefully bright future. Yeah! Thanks to my parents and all the people who helped me get through the two years of BOY'S SCHOOL LIFE. Thanks Jason.

Being in Murphy has been a memorable experience for me. But my senior year has been the most memorable. Christian Vocations with Mr. Dan Gallup? I could never understand what he was saying. Mechanical Drawing with spud-boy juniors. Watching Charnock and the Irish-Man stamping all over each others cars. Golf Team — I do not know — Can they hang with me and my 375 yd. tap the ball fly? Danny Murphy and Danny Gallup. Good Bye!!!!

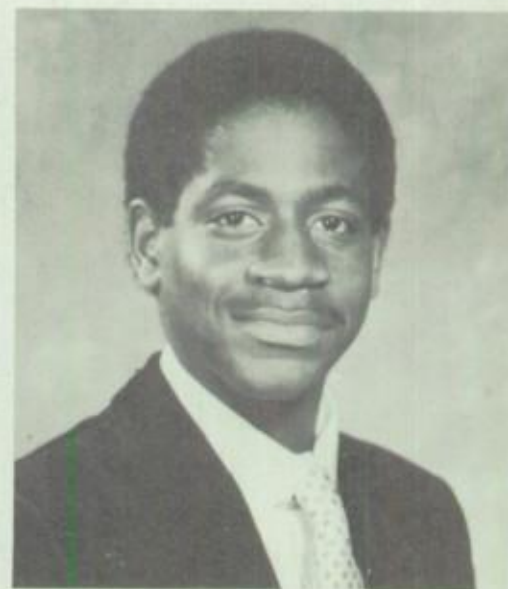

Pomp and his homegirls get busted for excessively tight clothes.

Rod Gomez, President

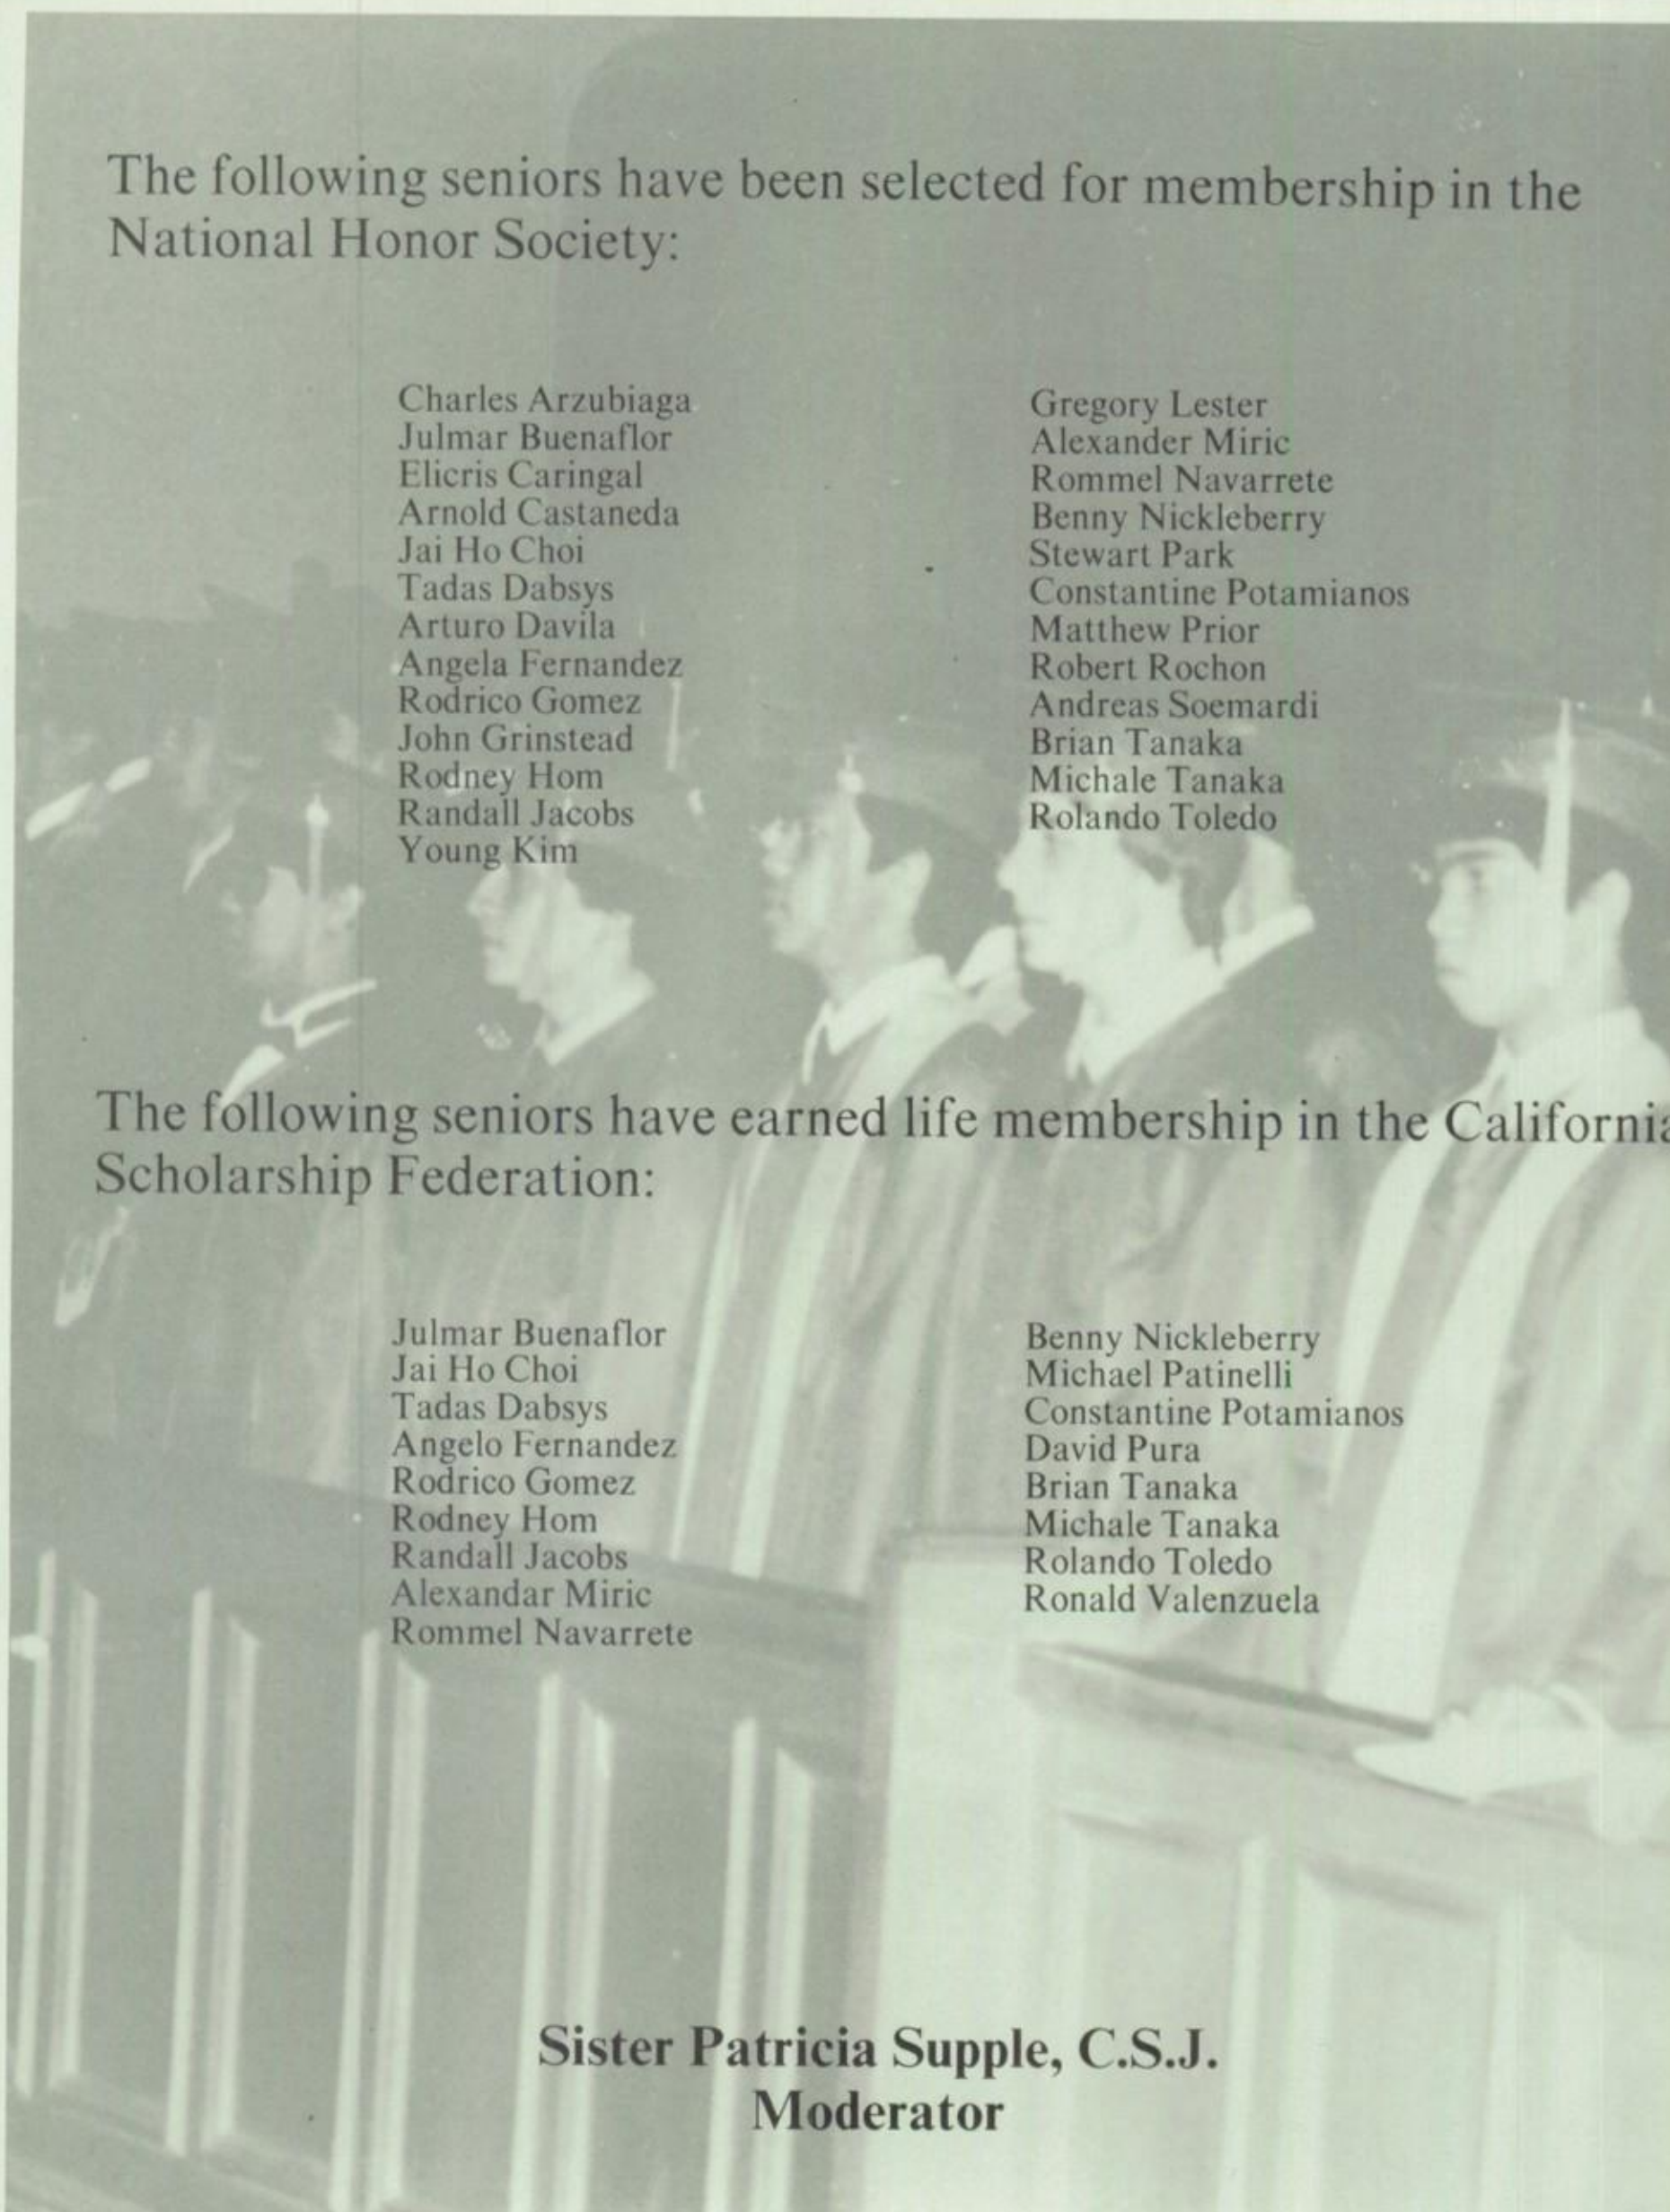

My Fellow Graduates:

Congratulations on a job well done. After four years, all of our hard work has finally paid off. These past few years have been a long laborious struggle in which we have laughed, cried, grown, learned and developed as young men in preparation for our future lives. In the process, we have all become special, unique individuals capable of going as far as our dreams will carry us.

We come now to a very special point in time where we must face new challenges and problems, make new decisions, and answer new questions about the world. We arrive at the proverbial "fork in the road" where we will be put to the supreme test — the test of life, where we must use all of our intelligence, wisdom, ingenuity, and wits in reaching our unreachable star. You will not fail, gentlemen. For I have faith in you and you must have faith in yourself. Aim high and hope for the best; give it all you have. This must be done positively and confidently. Dreams are good; they give us much-needed incentive and motivation. They pick us up when we are down. Follow your dreams, gentlemen — diligently, persistently, sincerely. They do not come easily, so you must not falter and let them wither and die; you must stay with them. But then, most of all, you must be as true and sincere with yourself as you are with them. For if by some unforeseen circumstance you are not able to fulfill your original dream, you will still be a good person.

I do believe that the Senior Class of Daniel Murphy High School of 1983 is the finest class I have ever seen, and I am proud to be a part of it. I wish you all good luck always.
